MICHELL'S HIGHEST BULBS

RE annually planted in the public squares and parks of Philadelphia, Harrisburg, Reading, Wilkes-Barre, and on the Executive mansion grounds and greenhouses in Washington, D. C., which should be sufficient proof that they are all we claim for them. These contracts are always awarded us on the merits of previous year's quality

TESTIMONIAL

Upon viewing the beautiful display in the Philadelphia's public squares and parks the past spring, the City Forester writes:

" After noting the wonderful bulbous bloom in the city parks and squares, there are two indisputable facts in evidence: The very high standard of excellence attained by your bulb growers in Holland and your ability in procuring the best of their production in that line. I am glad that the public will be treated to a floral display next year equal to that of this spring, by reason of the contract for all bulbs for the city squares and parks being awarded to Henry F. Michell Co.

"JOHN C. LEWIS,

"City Forester and Landscape Gardener for Philadelphia."

MICHELL'S PREMIUM BULB COLLECTIONS

On all PAID ORDERS where remittance accompanies the order at the time it is sent, we will include Bulbs as follows provided they are asked for at the time of ordering.

Orders in amount of \$1.00 to \$2.00, 25 bulbs of our selection Orders in amount of \$3.00 to \$4.00, 75 bulbs of our selection "" " 4.00 to 5.00, 100 " " " "

Where larger orders are sent we will make up and include special collections.

The selection of all these free collections of bulbs must, however, be left to us.

Please be sure to mention this Premium Bulb Offer on your order as noted above.

Brief Cultural Directions on a few of the Most Important Bulbs

HYACINTHS

Directions for Planting in the Open Ground.—This should be done in October and November, but they can be set out at any time, as long as the ground is open and the bulbs remain sound, but early planting always insures good root development and thorough establishment. The best compost for their culture is the following: One-third sand. one-third well rotted cow manure and one-third good garden mould; or, where the soil is naturally light, well rotted cow manure liberally intermixed is sufficient. Special care should be taken not to add any bone fertilizers, as they usually draw vermin. The beds composed of the above compost should be well dug to a depth of fourteen inches, and raised from two to four inches above the level of the walks. Care must be taken not to press the earth too firmly around and over the bulbs. After planting, rake the bed smooth, and after the ground has frozen tolerably hard in early winter cover with dry litter, leaves or coarse manure. If this be applied before freezing weather it renders the bulbs liable to the predations of field mice.

For Culture in Pots.—Prepare the above compost, adding, if possible, a quantity of leaf mould. The most favorable time for planting is September, October and November. The size of the pot depends on the number of bulbs planted in a single one; three bulbs in a pot of, say, six inches diameter make a rich, massive effect; one or two bulbs in each may be planted in proportionately smaller pots-two bulbs in each are very effective. When planted water them well, then bury the pots in the open ground to the depth of six inches for eight weeks, in which condition the preparatory root growth necessary to a vigorous development of their flower spikes is made. After this period take up the pots and remove them to a room not heated, but not so cold as to freeze. Being exposed to the light for the first time, they are, of course, very delicate. Care should, therefore, be exercised not to place them in the direct rays of the sun for two or three days.

For Growing in Glasses.—Single varieties are the best for this purpose, as they produce much more satisfactory blooms than the double ones. Place the bulb in the glass, which should be filled with water so it touches the bottom of the bulb, place them in a cool place, in the dark,

changing the water every ten days or two weeks; keep them in the dark from six to eight weeks, then remove them to the light. If then kept in a cool room they will produce very fine spikes.

A small piece of lump charcoal placed in the water will prevent it from getting foul.

TULIPS

For Bedding Out.—The bed should be formed of a compost similar to that recommended for Hyacinths; the bulbs should be planted about four inches apart and about five inches deep (close planting makes a much finer effect and prevents the flowers breaking off when swaying in the wind); they should then be covered with a litter shortly before the severe freezing weather sets in, and left in this condition until spring approaches.

For Pot or Pan Culture.—Plant about four bulbs in a six-inch pot or five bulbs in a six-inch pan, water thoroughly and then remove to the open ground or in a cold frame, covering with coal ashes; after they have rooted thoroughly they should be brought into a moderately cool room and gradually warmer; by bringing in a fresh supply from the outside every ten days, they can be had in bloom continually.

NARCISSUS

The double and single trumpet varieties should be planted in soil. For indoor culture, plant in boxes or pots, and treat similar to Hyacinths. Chinese Lilies and Paper White Narcissus, and the Polyanthus types, such as Grand Soleil d'Or, etc., succeed very well and are quite interesting if planted in water and pebbles, as one can watch their progress of growth. A small lump of charcoal prevents the water from getting foul, although changes of water are advisable.

CROCUS

A real show can be obtained from these tiny bulbs. They will bloom in a few weeks from time of planting inside. Place a few bulbs, or as many as the size of crock will warrant. In a short space of time the bulb will make a grand display. Planted out in the open ground, they bloom among the first of the spring flowers.

Distances for Planting apart some of the most important Bulbs outdoors

Aconite. 3 to 4 inches. Anemone. 8 to 10 inches. Chionodoxa. 4 to 5 inches. Crown Imperials. I foot to 15 inches. Crocus. 2 to 3 inches. Colchicum. 6 to 8 inches. Daffodils. 5 to 6 inches. Dielytra. 3 to 4 feet.

Hyacinths. Bedding sorts, 5 to 6 inches. Hyacinths (Grape). 3 to 4 inches. Iris, Japanese. 2 to 3 feet. Iris, Spanish. 4 to 5 inches. Iris, English. 6 to 8 inches. Ixias. 3 to 4 inches.

Jonquils. 3 to 4 inches. Lilium Candidum. I to 2 feet. Lilium Japan Varieties. 1 to 2 feet. Lily of the Valley (Clumps). I to 2 feet. Paeonies. 2 to 3 feet. Ranunculus. 4 to 5 inches. Snowdrops. 3 to 4 inches. Scilla. 3 to 4 inches. Sparaxis. 3 to 4 inches. Spirea. 1 to 2 feet. Star of Bethlehem. 5 to 6 inches. Tulips. 4 to 6 inches.

Number of Bulbs required for Planting Circular Beds at distances noted below

Oval beds require very much the same number, although we will be glad to give the exact information whenever desired, also for other sized or shaped beds.

MICHELL'S SUPERB HYACINTHS—Continued

DOUBLE VARIETIES

The Double Hyacinths, while grown by many, do not produce as large a spike as the single sorts. They should not be used for growing in glasses as there they are not entirely satisfactory. The sorts we offer have been chosen from a long list and can be depended upon to give good results.

NAMED EXHIBITION HYACINTHS

Every year we have our most reliable grower make us a selection of the largest possible Hyacinth Bulbs to be obtained. He usually scours the entire bulb-growing district of Holland to find them. In past years they've been so sought after that we rarely have enough to meet demands; so order them early. We offer them in single varieties only, our selection. 20c. each; per doz., \$2 00; \$15.00 per 100. (See also page 7.)

AN UNSOLICITED TESTIMONIAL

The 25,000 bulbs I purchased from your firm last year were superior to those which I myself imported and grew under the same conditions, especially the Dutch Hyacinths. These I grew on contract. They were so satisfactory to my trade that I have already booked orders for next Easter. Kindly put down my order again for this year and increase it 50 per cent.

R. A. G.

MICHELL'S SUPERB HYACINTHS—Continued

Photograph of a Bed of Michell's Named Hyacinths and Tulips in Logan Square, Philadelphia, showing part of 140,000 Bulbs supplied the City for planting in the public squares and parks.

MICHELL'S NAMED HYACINTHS—For forcing and high-class bedding; also called Second Size Named

Used for Forcing and high-class Bedding. Of late years the Named Hyacinths have gained wide prominence for bedding on account of their flowering at one time, being all one height and uniform in appearance. The Named Hyacinths offered on this page are especially recommended where the above effect is desired.

MICHELL'S CHOICE BEDDING HYACINTHS Unnamed Sorts

In the following hyacinths we offer something very choice either for bedding or for pot culture. Where bedding of hyacinths is to be done in large quantity we can particularly recommend them on account of their low cost, the length of time they remain in flower, and because of their handsome effect.

FRENCH ROMAN HYACINTHS

Roman Hyacinths afford a continuous supply of bloom from early winter until late in spring if forced successively. They are very fragrant. The blooms are suitable for most any kind of cut-flower work; they also look very attractive if planted in boxes or pots and used for window decoration. They are not hardy, consequently will not do for outdoor planting.

Bulb Pan

Michell's Monster White Roman Hyacinths

Specimen Bulbs for Show and Exhibition Purposes

For several years we have arranged with our various bulb growers to supply us with MOTHER or MONSTER BULBS. In some varieties while the individual bulb is smaller than in the more common variety, the flowering results can not be compared with the latter. These bulbs will give you the finest and largest blooms. Gardeners have been exhibiting them for a number of years in the Flower Shows of Philadelphia, New York, Boston, Baltimore, etc., and annually capture highest awards.

ORDER EARLY as we are able to import only a limited number on account of their scarcity.

MICHELL'S EARLY DOUBLE TULIPS

Double Tulips are used very extensively for forcing but are equally valuable for bedding purposes. They remain in flower longer than do the single sorts on account of their substance, although they do not make quite as fine a show. They should not be planted in beds with single tulips as they do not bloom as early as the single sorts. The number prefixed before the variety denotes the

MICHELL'S LATE OR MAY FLOWERING TULIPS.

Nothing in the line of horticulture has received so much comment in late years as the late flowering tulips. A few years ago where only hundreds were sold, the demand has now grown to hundreds of thousands. They well deserve the popularity they have gained, for no other of the spring flowering bulbs can approach them for brilliancy, beauty and usefulness. Reading from the left, the above shown sorts are Bizarres, Bouton d'Or, Golden Crown and Bybloemen. The numbers indicate the approximate height. They are all adapted for cutting but not for forcing.

SEPARATE COLOR NAMED SORTS

(All single except where noted.)

15 Blue Flag. (Double.) A very pretty shade of violet blue, very odd, and should on this account be included in every collection. 5c. each; per doz., 5oc.; \$2.50 per 100; per 1000, \$20.00.

18 Bouton d'Or. (Golden Beauty.) Color, a beautiful golden yellow; handsome perfect flower; grand for cutting. 3c. each; per doz., 3oc.; \$1 60 per 100; per 1000, \$14.00

24 Gesneriana Spathulata. A brilliant scarlet, with blue-black center. This is one of the finest late tulips in existence. 3c.

each; per doz., 25c.; \$1.75 per 100; \$15 00 per 1000.

24 Gesneriana Rosea. Very similar in character and growth to

the above; the color, however, is a rich, brilliant pink. 3c. each; per doz., 25c.; \$1.60 per 100; per 1000, \$13.00.

18 Golden Crown. Flower very large, of a pure yellow color, with

a narrow border of red, excellent for bedding or cutting.
3c. each; per doz., 3oc.; \$1.25 per 100; per 1000, \$10.00.

15 Greigii. Sometimes called the Queen of Tulips. Color, brilliant orange with center of yellow and black. 12c. each; per doz., \$1.25; \$8.00 per 100.
20 Picotee. (Maiden's Blush). (See opposite page). Color,

white with a distinct rosy border; the finest late tulip. 4c. each; doz., 30c.; \$2 00 per 100; per 1000, \$17.50.

Separate Color Named Sorts—Continued.

24 La Merveille. Beautiful orange red, one of the best of the late sorts. Each, 4c.; 35c. per doz.; per 100, \$2.25; \$18.00 per 1000.
21 Rosalind. Double. A bright cherry pink, pure white at base.

4c. each; per doz., 3oc.; \$2.25 per 100; per 1000, \$18.50.

18 Shandon Bells, or Blushing Bride. A beautiful carmine, red

or pink, shaded creamy white, a very pretty contrast. 4c.

each; per doz., 35c.; \$2.00 per 100; per 1000, \$17.50.

20 The Sultan. A peculiar shade of mahogany brown. 3c. each;

per doz, 30c.; \$2.00 per 100; per 1000, \$17.50.
20 White Queen. Creamy white, tinted rose, very large flower. 5c. each; per doz., 5oc.; \$3.75 per 100; per 1000, \$32.50.

LATE TULIPS IN MIXTURES

Bizarres. A peculiar combination of colors, principally yellow ground with markings and stripings of red, white and orange. 3c. each; per doz., 2oc.; \$1.25 per 100; per 1000, \$10.00. Bybloemen. A wide range of shadings and combinations of

white, scarlet, pink, scarlet and crimson. 3c. each; per doz., 25c.; \$1.50 per 100; \$12,00 per 1000.

Darwin's A most interesting class of late tulips, covering a very wide range of colors. The Darwin's are the most interesting class of late tulips offered. 3c. each; per doz., 3oc.; \$1.75

per 100; per 1000, \$16.00.

Single Superfine Mixed. This mixture embraces almost every type of single late tulip and we can recommend them highly for planting in places where a fine show is desired. 3c. each; per doz., 25c.; \$1.75 per 100; per 1000, \$14.00. Double Superfine Mixed. In all colors. Many prefer the double

tulips as they last longer than the single sorts. 3c. each; per doz. 20c.; \$1.25 per 100; per 1000, \$10 00.

Single bulbs mailed free. Please add 6c. per doz. for postage.

PARROT OR DRAGON TULIPS

These belong to the late flowering class and on account of their peculiar markings and shadings, are much in demand. They are curiously curled and crested, as may be seen by observing the illustration below. They are fine for bedding and border planting, also useful as a cut flower, keeping well for some time when placed in water. They are very fragrant, and grow about 12 in. high. We offer first size bulbs only in Parrot Tulips, in second size rarely bloom the first year.

Constantinople. Orange scarlet, with black markings in centre. 3c. each; per doz., 3oc.; \$1.75 per 100; per 1000, \$15.00.

Cramoise Brilliant. Deep carmine, flowers are very large with a star-shaped centre. 3c. each; per doz., 3oc.; \$1.75 per 100; per 1000, \$15.00.

Gloriosa. A very showy orange and red sort, petal very broad, producing a mammoth flower. 3c. each; per doz., 3oc.; \$1.75 per 100; per 1000, \$15.00.

Lutea Major. Very large, bright yellow, makes a handsome bed when planted with Cramoise Brilliant. 3c. each; per doz., 3oc.; \$1.75 per 100; per 1000, \$15.00.

Mixed in all colors. This mixture is carefully blended and contains only the choicest sorts. 2c. each; per doz., 2oc.; \$1.25 per 100; per 1000, \$10.00

TESTIMONIAL

The bulbs I had from you last year gave me the best flowers I've had since I've been in business, and that is saying a good deal. They were the best in all Lebanon and I was sold entirely out of Easter bulb plants two days before Easter. Here is my order for next year.

Lebanon, Pa.

CHAS. KOHR.

Late Single Tulip Picotee. (See page 10.)

Parrot or Dragon Tulip Gloriosa.

COLLECTIONS OF LATE OR MAY FLOWERING TULIPS

At the very low price we are offering these collections, everyone who plants tulips should have a number of them. These varieties are suited to cutting and decorating; the odor they impart to the air is also a splendid feature. (Greigii has not been included in these collections.) To order by number will be sufficient.

Collection No. 1 to include 6 each of the 21 sorts offered on this and page 10—126 bulbs	
Collection No. 2 to include 12 each of the 21 sorts offered on this and page 10—252 bulbs	
Collection No. 3 to include 25 each of the 21 sorts offered on this and page 10—525 bulbs	
Collection No. 4 to include 50 each of the 21 sorts offered on this and page 10—1050 bulbs	
Collection No. 5 to include 75 each of the 21 sorts offered on this and page 10—1575 bulbs	
Collection No. 6 to include 100 each of the 21 sorts offered on this and page 10-2100 bulbs	

TESTIMONIAL

The thousand or more bulbs I purchased from you last fall showed up fine. I am certainly well pleased with them.

Williamsport, Pa.

H. R. HANKS.

MICHELL'S DOUBLE NARCISSUS OR DAFFODILS

The Narcissus or Daffodil is becoming more popular every year. It is hardy in every way and thrives most anywhere. For naturalizing in woods and fields, nothing equals it. When once established they multiply rapidly and in a short time cover tremendous areas. They can also be used for forcing, for which purpose they are highly desirable. Plant in a pan or pot anywhere from 3 to 12 bulbs, according to size of bulb. After they have been forced and flowered they can be planted out doors for another year's bloom. We offer large bulbs only.

Alba Plena Odorata. A very sweet-scented pure white variety called Double Poets Narcissus; it flowers later than many of the other daffodils, and is not desirable for forcing. It makes a handsome show bedded among perennial plants and shrubbery; height about 15 inches. 3c. each; per doz., 2oc.; \$1.00 per 100; \$9.00 per 1000.

In comparable Double. On account of the peculiar suffusion of the colors in the flower, this variety is also known as "Butter and Eggs." The color is yellow and orange and makes an attractive cut bloom. Its greatest value is for outdoor planting as it does not force so well. Height about 16 in. 3c. each; per doz., 25c.;

well. Height about 16 in. 3c. each; per doz., 25c.; \$1.50 per 100; per 1000, \$11.50.

Orange Phoenix A variety similar to the above, except for coloring, which is a light yellow, almost white, with a yellow centre. It is splendid for forcing or pot culture. It is also called "Eggs and Bacon." Height, 16 in. 4c. each; per doz., 30c.; \$2.00 per 100; per 1000, \$15.00.

Sulphur (or Silver) Phoenix. Flowers very large, blush-white the centre is sulphur colored; excellent for force.

Sulphur (or Silver) Phænix. Flowers very large, blushwhite; the centre is sulphur colored; excellent for forcing or outdoor planting. Height, about 18 in. 5c. each; per doz., 50c.; \$3:00 per 100; per 1000, \$25.00.

Michell's Double Narcissus Alba Plena Odorata.

Michell's Double Narcissus. Monster Von Sion.

Von Sion. (Telimonius Plenus.) The true double daffodil. Our stock of these comes from one of the largest daffodil producers in Holland. The color is a pure golden yellow entirely free from green tipped flowers, which are often found in cheap grades. For forcing or outdoor planting it has no equal. It should be planted extensively for naturalizing. Height, about 15 in. Well matured stock.

Double Mixed Narcissus. All shades, varieties and colors. A quantity of these make a handsome investment, and at the low price which they are offered, should be planted extensively. Do not force the mixed narcissus. 2c. each; per doz., 20c.; \$1.10 per 100; per 1000, \$8.00.

If desired by mail, add 8c. per doz. for postage. Single Bulbs mailed free.

POLYANTHUS NARCISSUS

This class of Narcissus is a most interesting one. They may be grown in water and pebbles like Chinese lilies, but they are equally suited for growing in soil. The flowers are produced in clusters, like the illustration, and they are delightfully fragrant. They are not as a general thing hardy, but can be planted outdoors only if afforded liberal protection during winter.

Double Roman. White perianth; with an orange and yellow suffused cup; very free flowering and early. 4c. each; per doz., 25c.; \$1.50 per 100; per 1000, \$12.00.

Gloriosa. A very showy type, with white perianth and orange-yellow cup; very pretty. 4c. each; per doz., 4oc.; \$2.50 per 100; per 1000, \$22.00.

Grand Monarque. Large, broad, white perianth with a primrose-yellow cup; a very striking flower. 5c. each; per doz., 35c.; \$2.25 per 100; per 1000, \$18.00.

Grand Soliel d'Or. Rich yellow, with deep red cup. For cutting this is a fine variety, as it makes a grand show. 5c. each; per doz., 4oc.; \$2.50 per 100; per 1000, \$20.00.

Paper White Grandiflora, First Size Bulbs. This is quite a specialty with us; of it alone we import almost one million bulbs. It is a pure white, flowering sort; used extensively for forcing as it can be brought into bloom in 8 weeks' time; the stems are very long and it is excellent for bunching. 4c. each; per doz., 4oc.; \$1.75 per 100; per 1000, \$15.00.

Paper White Grandiflora, Monster Bulbs. These are a very choice selection of the above and, while the same in character, the flowers are larger and are borne in greater profusion. 6c. each; per doz., 5oc.; \$2.25 per 100; per 1000, \$20.00.

White Pearl. A large pure white; very exquisite. 5c. each; per doz., 4oc.; \$2.50 per 100; per 1000, \$22.50.

Polyanthus Narcissus, Mixed. All colors and varieties. 4c. each; per doz., 3oc.; \$1.50 per 100; per 1000, \$12.50.

Polyanthus Narcis us-Monster Paper White Grandiflora.

Michell's Double Jonquils.

HARDY NARCISSUS IN MIXTURE

We import a very large number of these on account of the popular demand. They are a good investment at any time. For massing in borders, fields, woods and, in fact, anywhere. They more than return their cost in the liberal manner they flower, producing a wide range of color and variety of bloom. We offer large size bulbs only, which can be depended upon for results the first season.

Single Varieties. 15c. per doz.; per 100, \$1.00; \$7.50 per 1000; per 5000, \$65.00. **Double Varieties.** 20c. per doz.; per 100, \$1.10; \$8.00 per 1000; per 5000, \$72.50.

SWEET SCENTED JONQUILS

These are perfectly hardy and are suitable for either outdoor planting or forcing. They are delightfully fragrant and are worthy of extensive cultivation.

Single Jonquils. Rich yellow, very fragrant, height 12 inches. 2c. each; per doz., 15c.; 75c. per 100; per 1000, \$6.00.

Double Jonquils. Flowers very double, deep golden-yellow, height 12 inches. 4c. each; per doz., 3oc.; \$1.75 per 100; per 1000, \$15.00.

Campernelle. Single yellow; a grand forcer. 2c. each; per doz., 2oc.; 85c. per 100; per 1000, \$6.75.

Campernelle Rugulosus. Single yellow; larger than the plain Campernelle. 3c. each; per doz., 25c.; \$1.15 per 100; per 1000, \$9.00.

If desired by mail, add 8c. per dozen for postage. Single bulbs mailed free.

The above illustrates a photograph taken in Independence Square, Philadelphia, showing part of 15,000 Narcissus Emperor, all Bulbs supplied by us. (Michell's Named Hyacinths in background.)

MICHELL'S SINGLE NARCISSUS OR DAFFODILS

Albicans. White perianth primrose trumpet. 5c. each; per

doz., 50c.; \$3.00 per 100; per 1000, \$25.00.

Ard Righ (or Irish King.) A very early pure yellow sort, well adapted for forcing and pot culture. Height, about 12 in. 5c.

each; per doz., 50c.; \$3.50 per 100; per 1000, \$30.00.

Barrii Conspicus. A beautiful flower with large spreading yellow perianth; the crown or cup is orange scarlet; free bloomer, best suited to outdoor culture. Height, about 20 in. 3c. each;

per doz., 25c.; \$1.50 per 100; per 1000, \$12.00.

Bicolor Grandee. Flowers very large with pure white petals, with yellow trumpet; flowering late. Height, about 12 in. Fine for cutting. 4c. each; per doz. 30c.; \$2.00 per 100; per 1000, \$15.00

Bicolor Victoria. Perionth pure white yellow trumpet flower extra Bicolor Victoria. Perianth pure white, yellow trumpet, flower extra

large. 6c. each; per doz., 6oc.; \$4 00 per 100; per 1000, \$32.50. Biflorus. A Poeticus type, white and yellow flower. 2oc. per doz.; per 100, \$1.25; \$9.00 per 1000.

Burbidgei. A very early flowering Poeticus type, white, red eye,

20c. per doz; per 100, \$1.25; \$9.00 per 1000.

Campernelle. See Jonquils, page 13.

Cynosure. Perianth primrose stained orange scarlet, with yellow cup. A fine variety for cutting. Height, about 12 in. 3c. each;

per doz., 25c.; \$1.25 per 100; per 1000, \$9.00. Emperor. (See cut.) This is the grandest of all single daffodils. The flower is pure yellow of gigantic size. It may well be termed the King of Daffodils. Excellent for forcing or bedding. Height, about 20 inches. 5c. each; per doz., 5oc.; \$2.75 per 100; per

Emperor (Monster Bulbs). 10c. each; per doz., \$1.00; \$6.00 per 100.

Empress. A beautiful sort with yellow trumpet and pure white perianth, flower almost as large as Emperor. It is the finest of the two-colored daffodils, suited to either forcing or bedding. Height, 20 inches. 5c. each; per doz., 5oc.; \$2.75 per 100; per 1000, \$25.00.

Figaro. Yellow perianth with orange yellow cup. 3c. each; per doz., 25c.; \$1.25 per 100; per 1000, \$10.00.

Giant Princeps. Suited to forcing as well as outdoor planting; trumpet, pure yellow with sulphur-white perianth. 3c. each; per doz., 25c.; \$1.25 per 100; per 1000, \$11.00.

Glory of Leiden. A giant flower, pure yellow, for forcing or bedding. 20c. each; per doz., \$2.00; \$14.00 per 100.

Golden Spur. One of the finest pure yellow daffodils in cultivation; is very bold and striking, early and free flowering.

Giant Bulbs, 10c. each; per doz., \$1.00; \$6.00 per 100. First Size Bulbs, 5c. each; doz., 40c.; \$2.50 per 100; per 1000, \$22.50.

Henry Irving. A very symmetrical golden yellow variety, fine for pot or garden culture. Height, about 18 in. 4c. each; per doz., 40c.; \$2.75 per 100; per 1000, \$20.00.

Horsfieldi. A variety very much like Empress; very early and free flowering. It makes a fine cut flower; suitable for either forcing or outdoor culture; perianth, pure white with yellow trumpet. 5c. each; per doz., 5oc.; \$2.75 per 100; per 1000, \$25.00.

Single bulb of Narcissus mailed free. For mailing dozen lots, add 8c. per doz, for postage.

MICHELL'S SINGLE NARCISSUS OR DAFFODILS-Continued

Hoop Petticoat. (Bulbocodium Narcissus.) This is a small diminutive flower, yet very attractive; color, exquisite golden yellow. It shows off to best advantage when planted in bulb pans; when in flower it presents a blaze of showy yellow. They are dwarf and consequently not suited for cutting, but, on account of their showiness should be planted more largely. Each bulb produces 6 to 8 flowers. Height, about 6 in. 6c. each; per doz., 50c.; \$3.50 per 100; per 1000, \$32.50.

Incomparable Stella. The earliest white and yellow variety to bloom outdoors; the flower is somewhat star-shaped, perianth pure white, with deep yellow cup. Fine for planting in borders or masses; not suitable for forcing. Height, about 12 in. 3c. each; per doz., 20c.; \$1.00 per 100; per 1000, \$8.00.

Leedsii (Mrs. Langtry.) A very free flowering sort, several flowers being produced on one bulb; perianth broad, pure white, with white cup edged yellow. Height, about 12 in. 4c. each; per doz., 3oc.; \$1.50 per 100; per 1000, \$12.50.

Obvalaris. (Tenby Daffodil.) Giant pure yellow, fine for out-door planting. 3c. each per doz., 3oc.; \$2.00 per 100; per

1000, \$15.00.

Poeticus. (Pheasant's Eye.) A pure white small flowering type with scarlet eye; they are very fragrant, and are valuable for cut flowers; they bloom quite late and are not suited to forcing; fine for naturalizing or planting in clumps. Height, about 15 in. 2c. each; per doz., 15c.; 7oc. per 100; per 1000, \$5.00.

Poeticus Ornatus. An improvement on the above type, being fully two weeks earlier; also suited to forcing; the height and appearance of the flower is much like the above. 2c. each; per doz., 20c.; \$1.00 per 100; per 1000, \$8.00.

Sir Watkin. Sometimes called Chalice flower. The bloom is very large for its class, measuring often 5 in. in diameter; perianth, golden yellow with a deep cup or crown; excellent for forcing. Height, about 20 in. 4c. each; per doz., 4oc.; \$2.25 per 100; per 1000, \$20.00.

Trumpet Major, (Dutch grown). A grand, pure yellow trumpet type, excellent for early forcing or for planting outdoors. Height, about 16 in. 3c. each; per doz., 25c.; \$1.50 per 100; per 1000, \$12.00.

Single Narcissus Poeticus Ornatus. (Natural size.)

Single Narcissus (Mrs. Langtry).

Trumpet Major, (French grown). For very early forcing these are very good; the flower is identical with the Dutch grown stock; color, pure yellow. 5c. each; per doz., 40c.; \$2.50 per 100; per 1000, \$20.00.

Wm. Goldring. A pure white trumpet variety one of the very best of its class. 4c. each; per doz., 4oc.; \$2.00 per 100; per 1000, \$17.50.

Single Mixed Narcissus. In all shades, varieties and colors. These should be planted and massed in large quantity. They bloom successively, according to variety, during the entire spring and furnish an abundance of cut flowers. They multiply rapidly and do not require replanting. We offer first size bulbs only, made up of named sorts in mixture. 2c. each; per doz., 15c.; \$1.00 per 100; per 1000, \$7.50.

Add 8c. per doz. for postage, if desired by mail. Single bulbs mailed free.

MICHELL'S SUPERB EASTER LILY BULBS

Our Easter Lily bulbs are known far and wide as the best to be had anywhere at any price. Each year sees our importations increase in great proportions. We make a specialty of them and, on account of the enormous quantity we import, we are in a position to get the cream of selection. All Lily bulbs are fully matured, healthy and up to size, in fact we aim to give the largest possible value for the money.

> EASTER SUNDAY IN 1910 COMES ON MARCH

LILIUM HARRISII

The old favorite Easter Lily; too wellknown to need description, except to say that in our "Special Brand" strain we offer something decidedly superior. Lilium Harrisii may be planted outdoors if afforded protection during the winter.

Cultural Note on Harrisii.—In order to obtain best results from Lilium Harrisii attention to the following brief directions will assist materially: Upon receiving the bulbs, pot them immediately. Place a handful of well-rotted cow manure in the bottom of the pot and place the bulb directly on top, covering it with soil. After watering, place pot in an outside pit and protect from the direct rays of the sun; cover well with soil, ashes or any other suitable litter. When the bulbs have become thoroughly rooted, bring inside, in a temperature of about 60°; let the plants grow slowly under a bench or some other suitable place until about 6 inches high; then place on top of the bench. About two months before Easter they can be brought into a warmer temperature and gradually forced into flower and height at one time. An occasional application of liquid cow manure, starting about six weeks before flowering time, will stimulate the plant Thorough rooting is the most wonderfully. essential point.

LILIUM PHILIPPINENSE

(Something New.)

An apparently new lily which is coming into prominence. It can be used for indoor or outdoor culture, is considered hardy but the introducers recommend storing the bulbs indoors in winter. We quote their --- cultural instructions, viz.: "Use deep pot, not too rich soil; no fertilizers of any kind. Water sparingly until growth begins; when the bloom has died away or been cut off, continue to water the plant till the leaves turn yellow, when the bulbs may be allowed to dry out in the pot and stored away until they are desired to start again. They like and thrive best in a very warm temperature. The flower is pure white and very graceful.

HOW TO GROW JAPANESE EASTER LILIES

Upon arrival of bulbs pot same at once in 4-inch pots, using coarse soft-coal ashes for drainage in the bottom of pots, giving them a soil composed of sandy loam and well enriched with about 1/3 well rotted horse or cow manure.

Place pots under a dry bench in either a violet or carnation house, soak down with water very heavy, and after two or three days cover the pots with 2 or 3 inches of ashes.

When Easter is early, place lilies on bench after January 1st, giving them a temperature of 60° night and 70° day for about 10 days, then 70° night and 80° day until buds can all be counted.

During this period manure-water them regularly once a week with the following liquid: I bushel cow manure (fresh), and one 4in. pot full of nitrate of soda to each 50 gallons of water.

Spray the foliage once a day (twice a day when clear weather), and keep the house moist otherwise by spraying the walls and walks. It is also very important to never allow the soil to get very dry, and never feed unless the soil is moist.

When the buds can be counted easily, move plants into houses where you can get the temperature down gradually, and finally mulch them with either a little sheep manure or bone-flour.

A marked improvement on the old

Auratum Platyphyllum. A marked improvement on the old Auratum, which it otherwise represents, except that the flower is of gigantic size, frequently measuring 10 in. across, with heavy foliage. It is probably the finest garden lily in cultivation to-day. Height, 6 to 8 feet; in bloom from July to October.

Large Bulbs 15c. each; per doz., \$1.50; \$10.00 per 100 Mammoth Bulbs . . . 25c. each; per doz., 2.50; 15.00 per 100 Candidum. (Annunciation or St. Joseph's Lily.) A pure white

fragrant flower borne in great profusion on long stems 3 to 4 feet high, flowering in June and July. It shows off fine when massed in clusters, where it should be left undisturbed to give best results. Ready now.

Extra Large. 10c. each; per doz., \$1.00; \$7.00 per 100; per 1000, \$65.00

Mammoth Bulbs. 15c. each; per doz., \$1.50; \$10.00 per 100; per 1000, \$90.00

Lilium Auratum Platyphyllum.

Lilium Candidum. (For description see above.)

Album Kraetzeri. An improvement on the old type of Lilium Album, being much larger and strictly pure white. The flowers are very large, measuring 6 to 8 in. when fully expanded. Height, 2½ to 3½ feet, blooming in August. Mammoth Bulbs 30c. each; per doz., \$3.00; \$20.00 per 100

Magnificum. A beautiful new variety with flowers almost twice the size of the other types. Color, a very rich red, spotted deep red. It is a tall graceful grower, height about 4 feet, blooming in August.

Large Bulbs 20c. each; per doz., \$2.00; \$12.50 per 100 Mammoth Bulbs 30c. each; per doz., 3.00; 20.00 per 100 Monster " 50c. each; per doz., 5.00; 35.00 per 100

Melpomene. A very rich blood-red, crimson, spotted flowers, large and

heavy. Height, 3 to 31/2 feet, blooming in August.

Rubellum. A compact or dwarf growing lily, producing flowers of a beautiful delicate pink. It blooms in June and July, which is much earlier than most of the improved classes of lilies. The flower is rather elongated but most attractive. Does well in sandy soil, with plenty of drainage. Height, 15 inches. Large Bulbs 20c. each; per doz., \$2.00; \$12.50 per 100

Tennuifolium. (Coral Lily.) Color, rich orange scarlet. Height, 1 to 2 feet, flowering in May and June; flowers small, foliage very narrow. 15c. each; per doz., \$1.50; \$10.00 per 100.

Tigrinum. Our stock of Tiger Lilies is imported from Japan and will be found to be far superior to home-grown bulbs which are small and produce weak plants. Color, golden orange spotted black, blooms in profusion. It makes a good show when massed in a bed or border. Blooms in July and August.

White Calla Lily

Single Bulbs of Callas, except where noted, mailed free. Add 10c. per dozen for mailing Black, Little Gem and Spotted Varieties.

Chinese Sacred Lilv

Callas require good, rich soil and plenty of warmth and water to make n thrive. The White Calla may also be grown in water. The black ety does not require so much moisture. When through flowering the s may be laid on their side to allow the tops of bulb to die off. The variety does not require so much moisture. pots may be laid on their side to allow the tops of bulb to die off. plant may thus be used another season.

BLACK CALLA. Dark flower (ready in October). 15c. each; per doz., \$1.50; \$10.00 per 100.

SPOTTED CALLA. White flower, green foliage spotted white (ready in October). 10c. each; per doz.,

\$1.00; \$7.00 per 100.

LITTLE GEM CALLA

Our stock of these is genuine, being procured direct from the original source. The plant and flower are indeed a curiosity. In appearance and growth it is just like the White Calla, except that the bloom and plant are much smaller. They are very free bloomers and are excellent for cutting or as pot plants. 10c. each; per doz., \$1.00; \$6.00 per 100.

(Elliottiana)

A beautiful variety, producing a flower of a golden-yellow color; the foliage is dark green, spotted white. 25c. each; per doz., \$2.50.

Little Gem Calla

TESTIMONIAL

I have been buying all my bulbs from another firm in years gone by, but last season I purchased some of the same sorts of bulbs from them and part from your house. Yours proved to be most satisfactory in every way while those from the other firm turned out in many cases to be blind.—MRS. MARY CRISWELL, Vandergrift, Pa.

CHINESE SACRED LILY

These beautiful flowers are deliciously fragrant and are produced in great abundance. The best effect may be had by planting three or more bulbs in a cluster. This is usually done in bowls, with pebbles and water, although they may also be grown in soil. After planting, place the bulbs in a dark, cool place until the bud appears in the stem; then bring to the light. Care should be taken at all times to see that they have an abundance of water. Many failures of Chinese Lilies to bloom are caused by keeping them in too warm a room; also by gases and dry heat. It is best to keep them in a cool room until the buds have burst. They flower in six weeks from time of planting. Color white, suffused yellow. We handle only blooming size bulbs.

Large Bulbs—roc. each (by mail, 13c.); 3 for 25c. (by mail, 35c.); 9oc. per doz.;

\$2.00 per basket of 30 bulbs.

Mammoth Bulbs—15c. each (by mail, 18c.); 2 for 25c. (by mail, 30c.); \$1.50 per doz.; \$3.50 per basket of 30 bulbs.

GOLDEN CHINESE LILY

A beautiful variety. The center cup is deep yellow while the perianth is lighter. Treat exactly the same as the regular Chinese Lily. Very fragrant. Large Bulbs—5c. each; per doz., 5oc. (by mail, 65c.); \$3.50 per 100.

BOWLS FOR CHINESE LILIES. Glass, for one bulb-15c. each; per doz., \$1.50. Glass, for three bulbs-25c. each; per doz., \$2.50.

IMARI OR JAPANESE BOWLS. Small—20c. each; per doz., \$2.00. Medium—30c. each; per doz., \$3.00. Large—40c. each; per doz., \$4.00. (Chinese Lily Bowls cannot be mailed.)

PEBBLES for Chinese Lilies. Carefully screened and selected. 8c. per qt. 2 qts., 15c.; 4oc. per peck; bushel, \$1.25. (Pebbles cannot be mailed).

MISCELLANEOUS FLOWERING BULBS

ACONITE-WINTER. (Eranthis Hyemalis.)

A very early golden yellow flowering bulb blooming with the Snowdrop. The foliage is quite dense and remains after the flower has died down. Aconite should be planted where it is shaded, preferably in a moist location; perfectly hardy. Height, about 6 inches. Dozen and 100 lots mailed free. 3c. each; 20c. per doz.; per 100, \$1.00; \$7.50 per 1000.

Neapolitanum. Used exclusively for indoor culture in pots and pans. It is especially adapted to forcing and makes an excellent cut flower; color pure white. Height 12 inches. It is not hardy, so cannot be planted outdoors. Dozen and 100 lots mailed free. Each, 3c.; 2oc. per doz.; per 100, \$1.00; \$7.00 per 1,000.

AMARYLLIS

Nothing equals the grand Amaryllis for variety of color, and for ease of culture. They usually flower in two or three weeks after planting. They are not hardy, so must not be planted outdoors. When the bulb has discontinued flowering it may be allowed to die off at the top, the bulb can then be cured and used another season. Keep in the dark for about I week when starting, and water liberally. Do not plunge the entire bulb in the pot, but cover it about half way up.

Belladonna Major. Bright pink. 15c. each; per doz., \$1.50.
Formosissima. (Jacobean Lily.) Crimson. 10c. each; per doz., \$1.00.
Hybrids of Vittata. A mixture of fancy unnamed sorts containing some handsome types. 50c. each; per doz., \$5.00.

Johnsoni. Red, striped white, very large flowering. Large Bulbs, 3oc. each; per doz.,

\$3.00. Mammoth Bulbs, 50c. each; per doz. \$5.00.

Treatea Alba (Zephyranthes). A very small flowering white variety, with grass-like foliage.

5c. each; per doz., 40c., (postpaid); \$3.00 per 100.

Treatea Rosea (Zephyranthes). Just like the above, except for color, which is a beautiful pink. 5c. each; per doz., 40c., (postpaid); \$3.00 per 100.

ANEMONE (Windflower)

One of our most attractive winter and spring flowering bulbs. They are excellent for forcing in pots for house or conservatory blooming; also perfectly hardy if planted outdoors. Height, about 10 inches. Dozen lots mailed free.

Single Scarlet. 3c. each; per doz., 20c.; \$1.25 per 100, (postpaid, \$1.40); \$10.00 per 1000.

Fulgens. Single scarlet, very large. 4c. each; per doz., 30c; \$2.00 per 100,

(postpaid, \$2.15); \$17.50 per 1000. Single Mixed. All colors. 3c. each; per doz., 20c.; \$1.00 per 100, (postpaid, \$1.15);

Double Mixed. All colors. 3c. each; per doz., 25c.; \$1.50 per 100, (postpaid, \$1.65); \$12.00 per 1000.

The Bride. Single white, very fine. 3c. each; per doz., 20c.; \$1.00 per 100; \$7.50

per 1,000.

ANOMATHECA CRUENTA (Scarlet Freesia.) (Ready in November.)

This little bulb produces an attractive scarlet flower much resembling the favorite

Freesia. It is used principally for forcing indoors, but may be planted out if protected during winter. The flowers, which are borne in great profusion, are a rosy scarlet, spotted crimson on the three lower petals. Price includes postage on dozen and 100 lots. 3c. each; per doz., 20c.; \$1.25 per 100;

(Ready in December).

Single Anemone-Fulgens. These bulbs can be used for spring bedding as well as for early flowering indoors. a wide range of colors as given below. The flower makes a beautiful contrast with the dark green foliage. Begonias are not hardy, and cannot be left outdoors during winter.

Allium Neapolitanum.

Fancy Giant Amaryllis

Begonia.

Chionodoxa

CHIONODOXA (Glory of the Snow)

One of the first flowers to appear in the spring. They make a handsome show, each bulb producing several flower spikes. They are periectly hardy and do not need any protection. They are frequently planted in masses on a lawn like Crocus. For edging other early flowering bulb beds they are well suited. Height about 6 inches. Dozen and hundred lots mailed at prices quoted below.

Gigantea. Large flowers; color lilac blue, white centre. 25c. per doz.; per 100, \$1.50;

\$10.00 per 1000.

Lucillæ. Bright blue with white centre. 15c. per doz.; per 100, \$1.00; \$8 00 per 1000. ardensis. Very deep blue with white centre. 15c. per doz.; per 100, \$1.00; \$8.00 per 1000.

Crown Imperial "Crown upon Crown"

COLCHICUM AUTUMNALE (Giant Autumn Flowering Crocus)

An attractive autumn flowering bulb. The flowers appear in the autumn while the leaves appear the following spring. They are perfectly hardy and do not require replanting. Grand for planting in woods, meadows, amongst shrubbery, etc. The colors comprise the various shades of lavender, purple and rose. Height 6 inches. Very Large Bulbs. 5c. each; per doz., 5oc.; (postpaid 6oc.); \$3.50 per 100.

Michell's Giant Named Crocus

CROWN IMPERIAL (Frittilaria Imperiaiis)

This bulb is not given the attention that is due it, for nothing makes a more striking or brilliant show than a cluster of Crown Imperials. It is hardy in every way, but we recommend a slight protection during winter. When planted three or four in a clump they give the best effect. The bulb produces a stem 3 to 4 feet long with a cluster of bell-shaped flowers at the top, which are gorgeous in coloring. We offer manmoth bulbs

mammoth bulbs.	Each	Doz.	100
Single Red	. \$0.20	\$2.00	\$15.00

Double Red (Crown upon Crown)	30	3.00	20.00
Single Mixed	12	1.25	8.00

CROCUS

Nothing can be had for so small an outlay that will produce the effect of a planting of Crocus bulbs. They should be put in the lawn, in the woods and wherever a place is available. The bright colored flowers appear almost as soon as the snow is away and makes one feel as though spring were actually at hand. For edging around perennial borders they are grand. They should be put in double or triple rows. We recommend for fine effect, planting the Giant Named varieties. MICHELL'S GIANT NAMED VARIETIES

DIELYTRA SPECTABILIS (Bleeding Heart)

Ready in November. A very ornamental spring-flower-plant. The flowers, which are heart-shaped, are produced on long drooping stems, of a beautiful rose and white color combination. It is the earliest spring plant to flower, with the exception of some bulbs. After the flower has bloomed away, the plant makes a very attractive appearance with its foliage. In order to make strong root development, the top may be cut away to the ground after the foliage has thoroughly developed. Dielytra forces very readily and is very attractive in a greenhouse or conservatory. We offer very strong, large roots. 15c. each (by mail, 20c.); per doz., \$1.50; \$10.00 per 100; per 1000, \$90.00.

GLADIOLUS (Ready in November).

The two varieties we offer below are very well suited to greenhouse culture, where they may be planted on carnation benches and in almost any place where they will get light and water. They produce long spikes of beautiful flowers, and are fine for cutting.

Bride. Pure glistening white, 3c. each; per doz., 2oc.; \$1.25 per 100; per 1000, \$8.50.

Blushing Bride. Rosy white with carmine blotches. This new and very fine gladioli is worthy of extensive cultivation. 4c. each; per doz., 3oc.; \$1.50 per 100; per 1000, \$12.00.

GLOXINIAS (Ready in December).

Our strain of these is very large flowering. The gloxinia is easily succeeded with in either house or conservatory. They like a shaded place, reasonably warm, and plenty of moisture. We offer mixed and separate colors as below.

Blue Scarlet and Red Spotted and Tigered White Bordered Blue White Bordered Scarlet White (Pure)

Any of the above separate color gloxinias, 15c. each; per doz. \$1.50 (by mail, \$1.65); \$7.00 per 100.

Choicest Mixed Gloxinias. 10c. each; per doz., \$1.00 (by

mail, \$1.15); \$6.00 per 100.

FREESIA

A beautiful white flower of exquisite fragrance. A continuance of them in flower can be had from Christmas until early summer, if planted at intervals of two or three weeks. Put them in pots or pans, 6 or 8 bulbs at a time, and place them in the light. Unlike most other bulbs, they make root and top growth at one time and become weakened if put in the dark. The flower stem is 8 to 10 inches long, and therefore it makes valuable for cutting.

Bermuda. Pure white, First size bulbs, 3c. each; per doz., 20c.; \$1.00 per 100; per 1000, \$8.00.

Bermuda. Pure white, Mammoth bulbs, 4c. each; per doz., 30c.; \$1.50 per 100; per 1000, \$10.00.

California. White, with yellow throat, First size bulbs, 2c. each; per doz., 15c.; 75c. per 100; per 1000, \$6.00.

California. Mammoth bulbs, 3c. each; per doz., 20c.; \$1.25 per 100; per 1000, \$9.00.

California. Monster bulbs, 5c. each; per doz., 35c.; \$2.00 per 100; per 1000, \$15.00.

Fischer's Purity. This is the grandest freesia ever offered. The flowers are almost twice the size of the regular type; they also differ somewhat, being a pure glistening white; the stems are often 15 inches long and very wiry, rendering it a most valuable cut flower. Each bulb will produce 3 or 4 flower stems.

Doz. Each \$2.75 First Size Bulbs . . \$0.04 \$0.40 \$22.50 4.50 .75 30.00 1.00 5.00 45.00

Leichtlini. Large, pure yellow, very fragrant. each; per doz., 25c.; \$1.50 per 100.

TESTIMONIAL ON MICHELL'S FREESIAS

I wish you could see the Mammoth Freesia Bulbs in flower, which I got from you. They are marvelous. I am getting 200 cut blooms a day from them. MRS. J. J. H.

St. Martins, Pa.

Dielytra Spectabilis. (Bleeding Heart.) (See description at top of page)

Fischer's Purity Freesia (See description opposite).

IRIS (Fleur de Lis)

The Iris is rapidly coming to the front as one of our most useful, as well as beautiful, flowering perennials. They thrive most anywhere, requiring little or no attention, multiplying rapidly.

ENGLISH IRIS. These are similar to the Spanish Iris, but the flower

is larger and also blooms earlier; perfectly hardy. Height about Doz. By mail \$0.25 \$0.30 Each will keep a long time when cut and placed in water.

Each By mail Doz. Named Varieties. Separate \$0.25 \$0.30 \$2.50 \$15.00 10.00 attractive than many of the latter. The flowers are beautiful and very delicate. They may be used for bedding outdoors or for forcing. While they are hardy we recommend a covering of litter to protect them during the severest part of winter. Each Doz. 100 Postpaid 1000 Alex. Von Humboldt. Light blue . \$0.02 \$0.15 \$1.00 \$1.10 \$7.50 .15 1.00 I.IO 7.50 .15 1.00 I.IO 7.50 .20 1.35 .85 1.25 9.00

work of veinings. 12c. each; per doz., \$1 25; \$9.00 per 1000.

A Cluster of Michell's Mammoth Russian Lily of the Valley

Spanish Iris

IXIAS

A charming little stove and conservatory bulb. It may also be planted outdoors if put in a protected position with plenty of covering during winter, in well-drained soil. The flower is very brilliant; produced on slender stems about 10 inches long.

Crateroides. A brilliant scarlet variety; forces very readily.

3c. each; per doz., 25c.; \$1.50 per 100; per 1000, \$12.00. Mixed. All colors; containing every imaginable color. 12c. per doz.; per 100, 75c.; \$6.00 per 1000.

LACHENALIA (Cape Cowslip)

A most profuse blooming bulb; very early; for indoor culture only. They should be grown in a cool place, where they will remain in bloom for six weeks.

Pendula. Vermilion, tipped green and purple; very odd. 20c. each; per doz., \$2.00; \$12.50 per 100.

LILY OF THE VALLEY (Ready in December except where noted.)

A beautiful pure white flower; principally used for winter forcing. Very fragrant and produced in abundance. For indoor culture plant about 25 pips or roots in a 7-inch pot or pan, place outside, where they should be left until they have been subjected to several nights' freezing, which brings them into flower more readily. When grown outdoors always plant in a shaded place, preferably moist. They bloom in four weeks inside and, if planted at intervals, a succession of flowers can be had all winter.

Michell's Berlin Pips. For forcing. 25c. per doz. (by mail,

30c.); 40c. for 25; \$1.50 per 100; per 1000, \$12.50. Dutch Pips. (Ready in November). For outdoor culture. 20c. per doz. (by mail, 25c.); 35c. for 25; \$1.25 per 100; per

Nichell's Mammoth Russian. This is the finest strain of Valley procurable. 4oc. per doz.; per 100, \$2.50; \$18.00

Clumps. (Ready in November). For outdoor planting only. 25c. per clump; per doz., \$2.50; \$18.00 per 100. Cold Storage. Berlin, \$2.50 per 100; per 1000, \$22.50.

Russian, \$3.00 per 100; per 1000, \$25 00.

ORNITHOGALUM ARABICUM (Star of Bethlehem)

A pure white spring-flowering bulb, perfectly hardy, will also force indoors. 5c. each; per doz., 4oc.; \$2.50 per 100; per 1000, \$22.50.

OXALIS

A free flowering house bulb which can be brought into flower in 6 to 8 weeks. Plant the bulbs in pots or pans about 6 bulbs to each, place them in a dark, cool place until thoroughly rooted, when they may be brought to the light. Oxalis are susceptible to insects from which they may be kept free, by an occasional sprinkling of tobacco dust. The bulbs are not hardy, so cannot be planted outside. They are well adapted to hanging baskets, with the exception of the Grand Duchess variety, which makes a fine pot plant.

Bermuda Buttercup. Pure yellow, free flowering variety, for pots.

Large bulbs. 3c. each; per doz., 25c; \$1.50 per 100; per 1000, \$10.00.

Monster bulbs. 5c. each; per doz., 50c.; \$3.00 per 100; per 1000, \$22.50.

Bowel. A large flowering sort; color, rich pink, very beautiful.

Large Bulbs, 3c. each; per doz., 25c.; \$1.50 per 100; per 1000, \$10.00.

Mammoth Bulbs, 6c. each; per doz. 6oc.; \$4.00 per 100; per 1000, \$35.00.

Grand Duchess. A distinct bushy upright growing variety, suited best for pot culture; the flowers are very large, often measuring as large as a silver dollar.

MICHELL'S HARDY DOUBLE PÆONIES

(Ready in October.)

These are another class of plants that have come into general favor in later years. They are well worthy of any attention bestowed upon them, for nothing makes a more gorgeous or lasting show than a bed of pæonies. They are perfectly hardy and need no attention after planting.

MICHELL'S GIANT FLOW-ERING PÆONIES

We offer a special selection of very large clumps, which if planted this fall, will bloom next spring. For an immediate effect these cannot be surpassed.

Pink, White and Red in separate colors. 35c. each, (3 for \$1.00); \$3.50 per doz.; per 100, \$20.00.

Pæony Festiva Maxima Alba. A grand white variety, streaked carmine in centre of flower, very early to bloom and quite fragrant. 50c. each, (3 for \$1.25); \$5.00 per doz.; per 100, \$35.00.

REGULAR DOUBLE PÆONIES

Pink, Red and White in large clumps, with 3 to 5 eyes each. 25c. each; per doz., \$2.50; \$16.00 per

Pæony Tennuifolia. A beautiful red sort, like a Jack rose, with fine foliage, blooms very early. 35c. each; per doz., \$3.50; \$25.00 per 100.

Michell's Double Hardy Pæonies.

MICHELL'S
Japanese Iris

Large Clumps

NAMED VARIETIES: 25c. \$2.50 \$15.00
MIXED COLORS: 15c. 1.50 10.00

RANUNCULUS OR BUTTERCUPS

A very dwarf growing bulbous plant, blooming very profusely. They are perfectly double in form and look like a small Anemone. For growing indoors they are very desirable; they may also be planted outside in borders with protection.

SCILLA SIBERICA (Squills)

A pretty blue flower, making an attractive combination when planted with Snowdrops or Crocus. They flower very early and remain in bloom some time. For growing in pots or pans they are also desirable. Planted in hyacinth and tulip beds as background they show off nicely, coming into flower before either of the above. We import large bulbs only. Each, 3c.; 2oc. per doz.; per 100, \$1.25; \$10.00 per 1000.

A Handsome Show can be obtained if you plant one or more beds of late tulips offered on pages 10 and 11.

SPARAXIS

A small bulb bearing a very large flower on long, graceful stems; they resemble somewhat the Ixia in shape. The range of colors is very great and they are most attractive for indoor blooming as they are not hardy.

Mixed Colors. 2c. each; per doz., 15c.; 75c. per 100; per 1000, \$6.00.

SNOWDROPS (Galanthus)

This is the first flower to appear in the spring and may invariably be seen in flower with snow and ice around it. They should be planted in masses or clumps, otherwise they are not conspicuous. Color pure white. Snowdrops can be flowered indoors during winter where they do well.

New Pink Spirea, Queen Alexandra (See opposite)

WATSONIA (Ardernei O'Brienii)

A beautiful pure white Gladioli-like flower; for indoor planting; each stem produces from 25 to 40 flowers. To obtain the best results in the cultivation of Watsonia Ardernei it is important that the bulbs be given perfect drainage and, where possible, a good loamy soil to which there has been added a liberal dressing of well-rotted manure. Owing to the height of the plants when in bloom it is advisable to stake them, as it prevents their breaking off at the surface of the ground. Strong bulbs: 20c. each; per doz., \$2.00; \$15 00 per 10c.

Elwee's Giant Snowdrops (See opposite)

SPIREA (Ready in November)

This is a favorite Easter flowering plant rivaling with the lily. The root is forced principally, but is also suited for outdoor planting, where it blooms in June. Our Spirea clumps are very large and cannot be mailed to advantage.

Astilboides Floribunda. A very plumy, fluffy

Astiboides Floribunda. A very plumy, fluffy variety; pure white. 15c. each; per doz., \$1.25; \$7.00 per 100.

Blondin. A large, thrifty plant, yielding an abundance of bloom. 20c. each; per doz., \$2.00; \$12.50 per 100.

\$12.50 per 100.

Compacta Multiflora. Of dwarf habit, very compact growth; pure white. 15c. each; per doz., \$1.25: \$7.00 per 100.

\$1.25; \$7.00 per 100.

Gladstone. One of the newer varieties. It is the best white sort in existence to-day, producing an immense plant with a mass of flowers.

Large clumps: 20c. each; per doz., \$2.00; \$12.50 per 100.

Monster clumps: 35c. each; per doz., \$3.75;

\$20.00 per 100.

Japonica. The old type of Spirea, growing taller than the other sorts. 15c. each; per doz., \$1.00; \$6.00 per 100.

McKinley. A good, new, white variety. 20c.

each; per doz., \$2.00; \$12.50 per 100.

Queen Alexandra (New). A beautiful shade of pink. Being an offspring of the Gladstone, it requires the same cultural methods. The plant should be shaded as it comes into bloom in order to bring the flower to full perfection. This is the only satisfactory pink forcing Spirea on the market. Large clumps: 40c. each; per doz., \$4.00; \$7.50 for 25; per 100, \$27.50.

market. Large clumps: 4oc. each; per doz., \$4.00; \$7 50 for 25; per 100, \$27.50.

Washington. This variety is similar to Gladstone but does not stand forcing so well. The flowers are pure white and borne in great profusion.

Large clumps: 20c. each; per doz., \$1.50; \$10.00 per 100.

Monster clumps: 35c. each; per doz. \$3.75; \$20.00 per 100.

GARDENIA FLORIDA (Cape Jessamine)

These are very fine for winter flowering in greenhouses and conservatories. They are also suitable for growing out doors, flowering in the early summer (they are not hardy). The color is pure white, delightfully fragrant.

Single Violet Luxonne FIELD GROWN VIOLET PLANTS

We offer very large field grown clumps that will give immediate effect. They are grown and cultivated with great care and will be found superior in every way, free from disease and rust. Violets are not mailable owing to the large size of the clumps we send out.

SINGLE VARIETIES

California. One of the largest single blue violets in cultivation. Free and continuous bloomer.

La France. Very large; one of the very best long stemmed sorts.

Luxonne. The very best large single blue variety. It is of a beautiful rich soft violet color, with strong stout stems from

9 to 12 inches long, very fragrant.

Princess of Wales. A very large sort. Stems long and stout, excellent for bunching.

Price of extra large clumps: 20c. each; per doz., \$2.00; \$12.00 per 100.

DOUBLE VARIETIES

Lady Hume Campbell. A fine light blue sort, excellent for late use. Russian. A very deep blue variety, blooming later than any of the

Swanley White. This variety compares with Lady Campbell except for color, which is white. The flowers are strongly scented. Price of extra large clumps: 20c. each; per doz., \$2.00; \$12.00 per 100.

Double Violet "Lady Campbell"

Carnation Beacon

FIELD GROWN CARNATION PLANTS

For winter blooming in conservatory and greenhouse. Our carnation plants are all field grown clumps, which will give immediate results indoors. Plants are not mailable.

Beacon. Fine large scarlet.
Boston Market. White, flowers continually.

Enchantress. Beautiful pink. Harry Fenn. Crimson scarlet.

Imperial. Pink, striped red. Irene. Pure yellow.

John E. Haines. Bright scarlet. Joost. Very free, pink.

Lawson. Bright pink. Lt. Peary. Pure white.

Mrs. M. A. Patton. White, variegated red.

Nelson Fisher. Light pink. Pink Imperial. Light pink.

Prosperity. Large white, streaked pink. Queen Louise. Pure white, free bloomer.

Red Lawson.

Rose Pink Enchantress. Light pink.

Splendor. New large pink. \$3.00 per doz.; per 100, \$18.00.

Variegated Lawson. Pink, striped red.

Vesper. Pure white.

White Enchantress. Large pure white.

Lawson. Very free bloomer.

Perfection. Immense flower.

Winsor. Cerise.

Large field grown clumps, ready for blooming; price (except where noted), 25c. each; per doz., \$2.50; \$15.00 per 100.

Carnation plants cannot be mailed as the clumps are too large.

HOUSE PLANTS AND FERNS

FERNS (For Ferneries and Dishes)

We have on hand, constantly during the winter months, a large selection of strong, healthy ferns.

3-inch pot size, 15c. each; per doz., \$1.25; \$9.00 per 10o.

2½-inch pot size, 10c. each; per doz., \$1.00; \$6.00 per 10o.

JARDINIERES AND FERN DISHES

Our stock of Fancy Jardinieres and Fern Dishes is exclusive; the most original designs and patterns can be obtained here, suitable for all sizes of pots. The prices are low—as little as 25c., as high as \$10.00. Call and examine our stock before purchasing elsewhere.

POT GROWN STRAWBERRY PLANTS

NOTE.—The pot grown strawberries offered by us are exceedingly large and vigorous plants, therefore the price must not be compared with rooted runners that have been put into pots just prior to shipment.

AUTO (Perfect). A bush-like plant, which makes but few runners, with many strong fruiting crowns. Mid-season Very productive; extra large bright red, conical berries of high quality.

BRANDYWINE. Late (Perfect). The finest of all late fruiting sorts; it has not a single defect. Fruit extra large, heart shaped; color bright, rich red.

BUBACH. Mid-Season (Pistillate). One of the best and most profitable market berries.

Bubach

CARDINAL (Perfect). "Cardinal" was found by capable judges, to surpass all in vigor, productiveness and other important qualities. 80c. per doz.; per 100, \$5.00; \$40.00 per 1000.

CHESAPEAKE (Perfect). A late variety; very prolific bearer, yielding well on extremely light soil.

COMMANDER. This berry is claimed to have but one fault, and that is its inability to hold up the immense trusses of berries produced. 80c. per doz.; per 100, \$5.00; \$40.00 per 1000.

COMMONWEALTH. The originator says it is the largest of the large berries; very productive, fine flavored and a beautiful dark color. It is quite late, lasting well into July.

FAIRFIELD (Perfect). Very early; a remarkable resister of drought, being a deep rooted sort.

GANDY (Perfect). This variety is known to most every berry grower as one of the best late sorts.

GLEN MARY (P.). Late. The fruit is very large but rather irregular, somewhat like Sharpless.

NOTE.—Some varieties which are marked with a P. are pistillate (or imperfect flowering), and while they embrace often the best kinds, it will be necessary in order to get fruit to plant bisexual (or perfect) flowering sorts near them. About five imperfect to one perfect flowering is the general rule.

HAVERLAND (Perfect). One of the most popular mid-season varieties,

HERITAGE (Perfect). This is truly a giant strawberry, it being almost impossible to put a whole berry at a time in one's mouth. Medium early. \$1.00 per doz; per 100, \$6.00; \$50.00 per 1000. Layer plants of Heritage ready in October. 35c. per doz.; per 100, \$1.50; \$8.00 per 1000.

KITTY RICE (Perfect). Berries quite large, glossy and of dark red color.

NEW HOME (Perfect). Late. It has been claimed one could pick forty quarts or more per hour. 80c. per doz; per 100, \$5.00; \$40.00 per 1000.

NICK OHMER. Excellent for mid-season use.

PRESIDENT (P.). A most remarkable variety, ripening in midseason. 80c per doz.; per 100, \$5.00; \$40.00 per 1000.

SAMPLE (P.). One of the very best pistillate kinds in cultivation. It is a great bearer of large, roundish berries. The fruit is large to the close of the season. Late.

SAUNDERS (Perfect). It is a deep red and remarkably glossy.

SENATOR DUNLAP (P.). Classed as medium, but makes a long season, commencing to ripen soon after the earliest, and continuing until near the last. 8oc. per doz; per 100, \$5.00; \$40.00 per 1000.

SUCCESS (Perfect). Begins to ripen early and continues several weeks; holds out its large size all through.

STEVENS' LATE CHAMPION (Perfect). It will stand a drought better than any other berry ever grown in this section. 80c. per doz.; per 100, \$5.00; \$40.00 per 1000.

SHARPLESS (Perfect). A mid-season variety; very large and a tremendous cropper.

WILLIAM BELT (Perfect). A grand mid-season sort.

Prices of any of the Pot-Grown Strawberries offered on this page (except where noted); 70c. per doz.; per 100, \$4.00; \$32.50 per 1000.

LAYER PLANTS of Strawberries ready October 1st. Prices (except where noted): 25c. per doz.; per 100, \$1.00; \$6.00 per 1000. Orders can be booked now.

A Hedge of California Privet

CALIFORNIA PRIVET

Large Stock, Strong Plants

Exceedingly beautiful; very vigorous and hardy; leaves deep green, bright and very glossy. Especially adapted for hedges at the seashore; easily transplanted. Beware of spurious kinds of privet which are being offered for the above and which are not nearly so desirable. Ours are the genuine California or Japan Privet (Ligustrum Ovalifolium). Most of them have been transplanted and are furnished with an abundance of fine fibrous roots, are well branched and are sure to give satisfaction.

Specimens in bush form, 3 to 4 feet high, 5oc. each; per doz. \$5 00.

OSAGE ORANGE. 1 year old: 75c. per 100; per 1000, \$5.00. 2 years old: \$1.00 per 100; per 1000, \$7.50.

We are in position to furnish at lowest price other hedge plants, such as Althea Berberis and dwarf evergreens.

SMALL FRUITS

Plant in October and November so they will be established for early spring growth.

BLACKBERRIES

Plant in good rich soil, in rows five feet apart, and three or four feet apart in the row. After the fruiting season or in early spring, cut out all the dead wood. These should be planted early, before the buds start. A good top dressing of stable manure, applied annually, produces large crops. Keep the ground clean and well worked.

Erie. An excellent early berry; ripens its entire crop at once. Berries good size, black, firm, sweet and of good quality. Per doz., 6oc.; \$3.00 per 100.

Eldorado. A very vigorous grower, free from mildew, enormously productive and free from core. Per doz., 6oc.; \$3.00 per 100.

Ohmer. Very hardy and exceptionally late. Fruit firm and of excellent quality; no core. Per doz., 6oc.; \$3.00 per 100.

Iceberg. A white blackberry. Its bearing qualities are wonderful. The berry is very large, sweet and tender. A heavy cropper. Per doz., 75c.; \$5.00 per 100.

Ward. An immense glossy black variety; rich, sweet, and with no hard core. A tremendous yielder. Per doz., \$1.00; \$8.00 per 100.

CURRANTS

Black Naples. Vigorous and productive. Used for jelly and jams and highly profitable for market in some sections. Two years old. Per doz., \$1.00; \$6.00 per 100.

Fay's Prolific. Color rich red. Per doz., \$1.00; \$6.00 per 100.

Red Dutch. Medium size; in large bunches. The old and wellknown currant of the garden. Per doz., \$1.00; \$6.00 per 100.

Red Cherry. Very large. Per doz., \$1.00; \$6.00 per 100.

White Grape. The best white variety; large and sweet. Per doz., \$1.00; \$6.00 per 100.

HARDY GRAPE VINES

Brighton. Bunch large, well formed Berries red, medium to large, round, excellent flavor and quality. One of the earliest in

Campbell's Early. A valuable and delicious grape. Vine very strong, hardy and vigorous, with thick, healthy foliage; an abundant bearer. Berries large, black, with light purplish bloom; skin thin; flesh firm but tender; few and small seeds; flavor rich and sweet.

Catawba. A very good keeper; red, sweet and rich, with pleasant flavor. Does best against buildings.

Concord. One of the most profitable of all hardy grapes. Bunch and berry large; black, juicy and sweet.

Delaware. Bunches small, compact, shouldered. Berries rather small, round; skin thin; light red; flesh very juicy, sweet, spicy and delicious.

Columbian. The largest grape in culture. A beautiful black color, juicy and sweet.

Moore's Diamond. A strong healthy grower, hardy and productive; color white; bunch and berries large. Ripens before Concord.

Moore's Early. Berry and bunch large, round; color heavy blue. Its earliness makes it desirable for an early market.

McPike. (New). Equal to Black Hamburg. Perfectly hardy and earlier than Concord. Bunches large, even and compact. Berries of mammoth size, being three inches in circumference; of superb quality; skin thin; delicious flavor: color deep blue. Each, 35c.; \$3.50 per doz.

Niagara. Berries large, mostly round, light greenish-white, semi-transparent; does not crack; has very little pulp.

Pocklington. Bunch and berries large; when fully ripe a light golden-yellow, juicy, tender, sweet. Strong grower, productive.

Prices, 2-year old vines, except where noted, each, 25c; \$2.50 per doz. 3-year old vines, except where noted, each, 5oc.; \$5.00

Industry Gooseberry

GOOSEBERRIES

Downing. Large pale green; soft, juicy and good for family use. Per doz., \$1.50; \$8.00 per 100. Houghton's Seedling. Pale red. Per doz., \$1.50; \$8.00 per 100. Industry. Although a foreign sort, it has done admirably, being a vigorous grower and an immense yielder. Color dark red. Each, 20c.; \$1.50 per doz., 100, \$10.00.

Pearl. A very productive and perfectly healthy variety, quite free from mildew. Pearl is a favorite and hard to beat; bushes planted but one year are said to yield three quarts of berries. A robust, vigorous grower, with berries larger than Downing. Each, 20c.; per doz., \$1.50; \$10.00 per 100.

RASPBERRIES

Brandywine. Large, bright red, hardy and productive, an old

variety, extensively grown. Per doz., 50c.; \$2.50 per 100.

Cuthbert. Large, firm, deep rich crimson, of excellent quality, perfectly hardy and very productive. Per doz., 50c.; \$2.50 per 100.

Philadelphia. Dark crimson. Per doz., 50c.; \$2.50 per 100.

Golden Queen. Best yellow variety. Per doz., 50c.; \$2.50 per 100.

Gregg. A large black variety, fruit firm, of excellent quality, and a good shipper. Per doz., 50c.; \$2.50 per 100.

Cumberland (Blackcap). The largest raspberry known. Selected

specimens measure an inch in diameter, they are uniformly very large. The canes are extremely hardy. They are immensely productive, producing annually very heavy crops. Fruit firm, and in quality equal to the very best. Per doz., 50c.; \$2.50 per 100. Columbian. A most vigorous grower. It is very hardy. Fruit

very large, often an inch in diameter, color dark red, bordering on purple, adheres firmly to the stem, the best for canning or evaporating and probably the most productive of all raspberries. Per doz., 50c.; \$2.50 per 100.

FRUIT TREES

APPLES—Baldwin, Ben Davis, Maidens' Blush, Northern Spy, Orange Pippin, R. I. Greening, Smith's Cider, Winesap, York Imperial, Grimes' Golden, Yellow Transparent. Extra strong well developed trees 2 years old, 6 to 8 feet high.

Each, 6oc.; \$6.00 per doz.

CHERRIES—Black Tartarian, Early Richmond, Gov. Wood,

Montmorency, May Duke, Mercer, Yellow Spanish, also
all other varieties. Extra strong well developed 2 year old

trees, 6 to 8 feet high. Each, 75c.; \$7.50 per doz.

PEARS—Bartlett, Clapp's Favorite, Kieffer, Lawrence,
Worden's Seckel, Vermont Favorite, also all other varieties.

Extra strong well developed 2 year old trees, 6 to 8 feet high.

Each, 75c.; \$7.50 per doz.
PEACHES—Crawford's Early, Crawford's Late, Elberta, Ford's White, Mountain Rose, Stump the World, also all other sorts. Extra strong well developed trees 2 years old, 5 to 6 feet high. Each, 40c.; \$4.00 per doz.

PLUMS—Abundance, Burbank, Green Gage, Satsuma. Extra

strong trees. 2 years old. Each, 75c.; \$7.50 per doz.

QUINCES—Champion, Orange. Meech, Bourgeat, Extra strong trees, 2 years old. Each, 75c.; \$8.00 per doz.

Write for complete Catalogue of Trees, Shrubs, etc. Mailed free.

MICHELL'S CELEBRATED FLOWER SEEDS

FOR AUTUMN AND EARLY WINTER SOWING. FOR COMPLETE LIST OF FLOWER SEEDS SEE OUR GENERAL CATALOGUE FOR 1909

For the convenience of our customers, and to facilitate the filling of orders, we have affixed numbers to all varieties of Flower Seeds, and in ordering it is only necessary to give the quantity wanted and the number; but care should be taken to give the correct number, as a mistake in this would result in getting the wrong variety.

MICHELL'S LAWN GRASS MIXTURES

TESTIMONIAL

I am much pleased with the Evergreen Grass Seed you furnished us last summer. I found it just as good in every way as some that we had gotten previously elsewhere at much more cost.

Bethayres, Pa.

JOHN G. SHELMIRE.

SEPTEMBER AND OCTOBER

are two of the best months for Grass Seed sowing, for making new, and renovating old lawns. Autumn seeding has many advantages over any other time.

TWO PEERLESS LAWN FERTILIZERS

Michell's Odorless Lawn Dressing is a lasting fertilizer, continuing to feed the grass for several seasons. No matter how small a plot you have you cannot afford to be without it. Apply at the rate of 600 lbs. per acre. Price, 5 lbs. 30c., 50c. for 10 lbs., 25 lbs. \$1.00, \$1.75 for 50 lbs., 100 lbs. \$3.00, \$5.00 for 200 lbs., $\frac{1}{2}$ ton \$21.00, per ton \$40.00.

"Wizard Brand" Sheep Manure. This article when used properly constitutes the very foundation of a lawn; no care required in application, it is pure and cannot burn, giving immediate results. 5 lbs. 25c., 75c. per 25 lbs., 50 lbs. \$1.25, \$2.00 per 100 lbs., 500 lbs. \$9.50, \$17.00 per $\frac{1}{2}$ ton, ton \$32.00.

GRASS SEED MIXTURES

There is nothing more essential to the well appearance of any place (whether it be a small city residence or a spacious country estate) than a well-established and kept lawn. Michell's Grass Seed Mixtures for lawns, pleasure grounds and fields are proven annually by thousands to be the very best obtainable. Last year our grass seed sales exceeded 250,000 pounds. This year they will be much larger. It might be well to compare our prices with those of other houses, who claim to give quality and at the same time charge top-notch prices. In many instances our prices are 25 per cent; less, and in no case is quality sacrificed.

MIXTURES FOR LAWNS AND PLEASURE GROUNDS

Michell's "Green Velvet" Grass Seed. This mixture represents the finest and purest lawn grass mixture offered by anyone. Practically every grain of chaff is eliminated in forming it and our customers will find it the greatest lawn grass mixture value ever offered as it will form a thick sward in two weeks during ordinary weather. Peok, \$1.25; \$5.00 per bu. of

20 lbs., 5 bush., \$23.75, \$45.00 per 10 bush.

Michell's Evergreen Lawn Grass Seed. The BEST LAWN GRASS SEED that exists for general use. Thousands of bushels sold annually; used by all the large estate managers, country clubs, and cemetery superintendents. Sow 4 bushels per acre on new lawn, or 2½ bushels in reseeding old lawns. Prices: Per qt. 25c. (postpaid 3oc.), 4oc. for 2 qts. (postpaid 5oc.), 4 qts. 65c., pk. \$1.00, bu. of 20 lbs. \$4.00, 5 bu. \$18.75, \$36.50 per 10 bu. Michell's Shaded Lawn Grass Seed. Difficulty is frequently

experienced in establishing a lawn where shade and other trees exist. This has been entirely overcome by the introduction of this formula. Those who have used it cannot get along without it for seeding shaded locations. Prices: Per qt. 25c. (postpaid 30c.), 40c. for 2 qts. (postpaid 50c.), 4 qts. 75c., \$1.25 per pk., per bush. of 20 lbs. \$5.00, \$22.50 for 5 bush., 10 bush. \$42.50. Fairmount Park Lawn Seed. A very fine mixture indeed,

meeting the requirements of those desiring a moderately-priced grass seed. Sow 4 bushels to the acre on new land or 21/2 bushels on old ground. Prices: Per qt. 20c. (postpaid 25c.),

bushels on old ground. Prices: Per qt. 20c. (postpaid 25c.), 35c. for 2 qts. (postpaid 45c.), 4 qts. 50c.; 75c. per pk., per bush. of 15 lbs. \$2.75, \$13.00 for 5 bush., 10 bush. \$25.00.

Evergreen Grass with no Clover. Many people do not like white clover in a lawn. Price: Per qt. 25c. (postpaid 30c.), 40c. for 2 qts. (postpaid 50c.), 4 qts. 65c., \$1.00 per pk., per bush. of 20 lbs. \$4.00, \$18.75 for 5 bush., 10 bush. \$36.50.

Michell's Seashore Formula Grass Seed. The salt atmosphere plays havoc with the seashore lawn. This formula contains such grasses only as thrive best in salt air regions. Sow 4

such grasses only as thrive best in salt air regions. Sow 4 bushels to the acre on new ground or 21/2 bushels for reseeding old lawns. Prices: Per qt. 25c. (postpaid 30c.), 40c. for 2 qts. (postpaid 50c.), 4 qts. 65c., \$1.00 per pk., per bush. of 20 lbs. \$4.00, 5 bush. for \$18.75, \$36.50 for 10 bush.

Michell's Terrace or Embankment Grass Seed. Sow 4 bushels per acre. Prices: Per qt. 25c. (postpaid 30c.), 40c. for 2 qts. (postpaid 50c.), 4 qts. 65c., \$1.00 per pk., per bush. of 20 lbs. \$4.00, 5 bush. \$18.75, \$36.50 for 10 bush.

Michell's Golf Course Grass Seed. Sow 5 bushels per acre. Prices: Per qt. 20c. (postpaid 25c.), 35c. for 2 qts. (postpaid 45c.), 4 qts. 50c., 85c. per pk., per bush. of 15 lbs. \$3.00, 5 bush. \$13.75, \$26.00 for 10 bush.

Michell's Putting Greens Grass Seed. This mixture is made up especially from such grasses as will grow very short and make a solid surface to withstand heavy wear. Prices: Per qt. 25c. (postpaid 3oc.), 4oc. for 2 qts. (postpaid 5oc.), 4 qts. 7oc., \$1.25 per pk., per bush, of 20 lbs. \$5.00, 5 bush. \$22.50, \$42.50 for 10 bush.

Michell's Lawn Tennis and Polo Grass Seed. The growth is short and compact, of rich green verdure. Sow 4 bushels per acre on new lawn or 2½ bushels on old lawns. Prices: Per qt. 25c. (postpaid 30c.), 40c. for 2 qts. (postpaid 50c.), 4 qts. 65c., \$1.00 per pk., per bush. of 20 lbs. \$4.00, 5 bush. \$18.75, \$36.50 for 10 bush.

Southern States Lawn Grass Seed. Made up especially for dry, hot localities, especially suited to the Southern States. 15 lbs. per bushel. Prices: 20c. per qt. (postpaid 25c.), 2 qts. 35c. (postpaid 45c.), 50c. for 4 qts., pk. 85c., \$3.00 per bush., 5 bush. \$13.75.

Special Sod Grass Seed. A quick growing mixture, making a very tough and heavy sod in a short time; especially valuable for cemeteries, pleasure grounds, etc. 15 lbs. per bush. Prices: 25c. per qt. (postpaid 30c.), 2 qts. 40c. (postpaid 50c.), 75c. for 4 qts., pk. \$1.00, \$3.50 per bush., 5 bush. \$16.75, \$32.50 for 10

GRASS MIXTURES FOR FIELDS

Michell's Permanent Pasture Grass Seed. A composition of varieties of grasses. A single seeding lasts for years; may be used as a pasture one season, the next as a hay crop. lbs. per acre on new land or 30 lbs. on old lands. 15 lbs. per bush. Prices: Per qt. 20c. (postpaid 25c.), 50c. for 4 qts., per pk. 75c., \$2.75 per bush., 5 bush. \$13.00, \$25.00 for 10 bush., 50 bush. \$112.50.

Exposition or Quick Growth Grass Seed. This is largely used in fields for pasturage, or when an immediate growth is desired (15 lbs. per bushel). Prices: Per qt. 20c. (postpaid 25c.), 3oc. for 2 qts. (postpaid 4oc.), per pk. 75c., \$2.75 per bush., 5 bush. \$12.50.

Michell's Hay Field Grass Seed. A thoroughly reliable mixture of seed suitable for hay. When sown and established this grass will stand for years with an occasional seeding of a small amount to make up for any worn-out spots. Sow 50 lbs. per acre (15 lbs. per bush.). Prices: 20c. per qt. (postpaid 25c.), 4 qts. for 50c., 75c. per pk., per bush. \$2.75, \$13.00 for 5 bush., 10 bush. \$25.00, \$112.50 for 50 bush.

CLIMAX LAWN SAND absolutely destroys Dandelions, Plantain and any other broad-leaved weed with hairy surface, on the lawns, at the same time promoting the growth of the finer grasses and adding to the beauty of the lawn. By its use the most weedy and impoverished lawn, golf ground, tennis court, bowling green or putting green is quickly transformed into a perfect sward of fine grass without the aid of any other fertilizer. MIXTURES MICHELL'S GRASS SEED

Office of West Laurel Hill Cem. Co. Please send us 10 bu. more of your Special Sod Grass, making a total of 40 bu. Our chief landscape gardener reports that it is very good, and the writer knows it is giving satisfaction. A. L. SMITH (Treas.)

WHITE DUTCH LAWN CLOVER

Excellent for thickening and promoting the growth of grass. Sow 10 to 12 lbs. per acre. 30c. per lb.; 5 lbs., \$1.40; \$2.50 per 10 lbs.; bu. (60 lbs.), \$14.50; \$24.00 per too lbs. 100 lbs.

GRASS SEEDS IN SEPARATE VARIETIES

OUR SEPARATE VARIETIES OF GRASSES have all been Tested Purity and Germination, and are all in A 1 Condition.

We offer these separate grasses because many people like to sow them alone, while others prefer to have mixtures made to order. We mix grass in any proportion of varieties at prices quoted here. No charges for mixing.

Awnless Brome (Bromus Inermis). Excellent for sowing on dry barren lands; will stand drought better than any other variety; sow 40 lbs. per acre. (Bu. 14 lbs.). Price, 20c. per

lb., per bu. \$2.50, \$14.00 per 100 lbs.

Bermuda Grass (Cynodon Dactylon). Valuable especially in the South for establishing grass on lawns and pleasure grounds. Not being hardy, it should not be sown in the latitude of Philadelphia. Sow 10 lbs. per acre. Lb. 60c. (postpaid 68c), bu., 35

lbs., \$20.00; \$55.00 per 100 lbs.

Blue Grass, Fancy Kentucky (Poa Pratensis). This is the most valuable of our lawn and pasture grass seeds; forms the body of all lawn seed mixtures. Our stock of this is extra fine, thoroughly recleaned; sow 3 to 5 bu. per acre on lawns, 2½ to 3 bu. on pasture fields. (Bu., 14 lbs.) Price, 15c. per qt., per lb. 25c., 85c. per peck, per bu. \$3.00, \$19.00 per 100 lbs. Blue Grass, Canadian (Poa Compressa). Makes an ideal pas-

ture highly relished by cattle; excellent also for sowing on embankments; sow in same proportions as Kentucky Blue Grass Seed. (Bu., 14 lbs.) Price, 15c. per lb., per bu. \$1.60, \$11.00

Creeping Bent (Agrostis Stolonifera). Adapted admirably for lawns also putting greens, tennis courts, etc.; sow 4 bu. per acre (20 lbs. per bu.). Price, 30c. per lb., bu. \$5.50, 100 lbs. \$26.50.

Crested Dogstail (Cynosurus Cristatus). Suitable for hard soils that are liable to bake; excellent also as a pasture and lawn grass. Sow 3½ to 4 bu. per acre (21 lbs. per bu.). Price, 45c. per lb., per bu. \$7.50, \$35.00 per 100 lbs.

English, or Perennial Rye Grass (Lolium Perenne). (Pacey's

Fancy Seed.) This makes the quickest returns in growth of any grass; is deep rooted and is readily established. Sow 3 bu. per acre (24 lbs. per bu.). Price, 10c. per lb., per bu. \$2.00,

\$8.00 per 100 lbs.

Fine Leaved Sheep's Fescue (Festuca Tennuifolia). This grass is especially valuable for poor dry soils; sow 30 lbs. to the

acre. (Bu., 14 lbs.) 45c. per lb., bu. \$6.00, \$35.00 per 100 lbs.

Herd or Red Top Fancy Recleaned. This is one of the best grasses for sowing for immediate effect. Our stock is free from chaff and is absolutely pure. Sow 25 lbs. per acre (32 lbs. per bu.) Price, 30c. per lb., per bu. \$7.25, \$22.00 per 100 lbs. Herd or Red Top (Agrostis Vulgaris). This is the same variety

as above, but the chaff has not been entirely removed. Sow 4 to 5 bu. per acre on lawns or 3 bu. on pasture lands (10 lbs. per bu.). Price, 18c. per lb., per bu. \$1.50, \$12.50 per 100 lbs. PRICES SUBJECT TO MARKET CHANGES.

Hard Fescue (Festuca Duriuscula). Sown on dry places or on undesirable ground this grass gives excellent results. Sow 3 bu. per acre (12 lbs. per bu.). Price, 20c. per lb., per bu. \$2.25, \$17.00 per 100 lbs.

Italian Rye (Lolium Italicum). Very desirable for pasture; being an annual, it comes to maturity the first season. lbs. per acre (18 lbs. per bu.). Price, 12c. per lb., per bu. \$1.60,

\$8.00 per 100 lbs.

Meadow Fescue (Festuca Pratensis). Also known as English Blue Grass; used principally for hay and pasture field sowing; also excellent for lawns. Sow 40 to 50 lbs. per acre (22 lbs. per

also excellent for lawns. Sow 40 to 50 lbs. per acre (22 lbs. per bu.). Price, 35c. per lb., per bu. \$6.00, \$25.00 per 100 lbs.

Meadow Foxtail (Alopecurus Pratensis). Fine for hay and pasture purposes. Sow 30 or 40 lbs. per acre (7 lbs. per bu.). Price, 45c. per lb., per bu. \$2.75, \$35.00 per 100 lbs.

Natural Green. Largely sown on lawns and fields. Sow 4 bu. per acre (14 lbs. per bu.). Price, 20c. per lb., per bu. \$2.00,

\$12.00 per 100 lbs.

Orchard Grass (Dactylis Glomerata). For early pasturing this is very desirable; also fine for sowing in shaded places. Sow 40 lbs. per acre (12 lbs. per bu.). Price, 35c. per lb., per bu. \$3.00, \$22.00 per 100 lbs.

Red or Creeping Fescue (Festuca Rubra). Very valuable for sowing on sandy soil and in shaded places. (14 lbs. per bu.). Price, 40c. per lb., per bu. \$4.50, \$30.00 per 100 lbs.

Rhode Island Bent (Agrostis Canina). For sowing at seashore

resorts, on putting greens, tennis courts, etc., this is very desirable. Sow 40 lbs. per acre (14 lbs. per bu.). Price, 35c. per lb., per bu. \$4.25, \$27.50 per 100 lbs.

Sheep's Fescue (Festuca Ovina). This makes an excellent grass

for sowing on lawns, fields or pleasure grounds. Sow 40 lbs. per acre (12 lbs. per bu.). Price, 25c. per lb., per bu. \$2.75,

\$17.00 per 100 lbs.

Sweet Vernal Annual; (Anthoxanthum Odoratum Puelli). a fragrant odor, imparting same to the hay; it is very valuable for sowing on pastures and also lawns. Sow 3 lbs. per acre with other grasses. Price, 25c. per lb., 5 lbs. 75c.

Sweet Vernal Perennial; (Anthoxanthum Odoratum Real).

Used similar to the above, except this sort remains permanent where sown. Price, 65c. per lb., 5 lbs. \$2.25.

Timothy (Phleum Pratense). Especially adapted for sowing for hay crops amongst wheat. Sow ½ bu. per acre alone. (45 lbs. per bu.). Price (subject to market change), 10c. per lb., per peck, 75c., \$2.65 per bu.

Wood Meadow (Poa Nemoralis). The best grass for sowing

under trees where a lawn is desired. Sow 30 lbs. per acre (14 lbs. per bu.). Price, 60c. per lb., per bu. \$7.50, \$50.00 per 100 lbs.

WHITE CLOVER

Choicest recleaned for sowing on lawns, etc. Sow 10 to 12 lbs. per acre (60 lbs. per bu.). Price 30c. per lb.; 5 lbs., \$1.40; \$2.50 per 10 lbs.; bu., \$14.50; \$24.00 per 100 lbs.

SCOTCH CHAIN GRASS HARROW

Positively the very best harrow to be had for putting the ground (where a lawn or pasture land is to be established) in the finest possible condition. Wherever a large or important undertaking of lawn or field work is in progress, this harrow should be employed. Very good also for dragging over roads and drives for the purpose of smoothing same. Made entirely of steel; never wears out.

These machines are now largely used for distributing grass and other seeds over large areas. The distributing box is very near the ground which is an important feature, preventing the seed from blowing away and thus coming up unevenly. Price (14-feet sowing area), \$7.00; 16 feet sowing area, \$8.00.

MICHELL'S CHOICE FARM AND CLOVER SEEDS All prices subject to

market changes

The intelligent and practical (both commercial and gentleman) farmer constantly sees the advantages and necessity in buying only first-class farm seeds. This object in view has led us to be known as handlers of high grade recleaned farm seeds. Customers may positively rely upon anything they may purchase from us in this line to be absolutely true to name and free from any adulteration. Samples of any variety of farm seeds cheerfully mailed upon request without cost. Add 22c. for each 2-bushel seamless bag when ordering farm seeds. These are returnable and will be credited at the same rate.

Michell's Fancy Delaware Grown Crimson Clover.

CLOVERS (60 lbs. per bushel)

Alfalfa or Lucerne (Extra fancy Utah Grown). Alfalfa makes the finest clover imaginable and when once established in the soil it is good for many years. For a sure crop sow 30 lbs. per acre. Height about 2½ feet. Four crops may be cut in one season. Alfalfa greatly increases the flow of milk and yields a richer quality. Price, 20c. per lb.; pk. \$2.75; \$11.00 per bu.

Alsike or Swedish. Particularly valuable when sown for mingling with other hay crops. Lasts many years where sown. Sow 10 lbs. per acre alone or 6 lbs. where sown with other grass or hay crop. Height, 1 to 3 feet. Price, '22c. per lb.; per pk., \$2.75; \$10.50 per bu.

Bokhara. A tall, quick-growing variety, principally used for providing food

for bees. Excellent for ensilage, as it may be cut several times a season. Sow 15 lbs. per acre. Height, 3 to 5 feet. Price, 3oc. per lb.; 10 lbs., \$2.50. Crimson (Delaware Grown). Used principally for soiling or green manur-

ing, is also relished by cattle when they become accustomed to it. Sow 20 lbs. per acre. If desired for feed, it should be cut before coming into flower. Height, about 2 feet. Price, 12c. per lb.; per pk., \$1.75; \$7.00 per bu.

Mammoth Red (Pea Vine Clover). Also called English Cow Grass. This sort is very similar to the Red Medium, excepting that it grows somewhat larger and remains established longer. Sow 15 lbs. per acre if sown alone or 10 lbs. if sown with another hay or grass crop. Price, 15c. per lb.; per pk., \$2.00; \$8.00 per bu.

Red (Medium). This is the most generally used of all clovers. Principally sown for hay purposes on timothy fields early in the spring. Sow 20 lbs. per acre if alone or 15 pounds where other grass or hay crops are standing. Height, about 18 inches to 2 feet. Price, 15c. per lb.; per pk., \$2.00; \$8.00 per bu.

White Dutch Clover. For field use on pasture lands it is extremely val-

uable. Sow 10 to 12 lbs. per acre on land seeded with grass or other grain. Our seed of White Clover is extra well cleaned. Price, 30c. per lb.; 5 lbs., \$1.40; \$2.50 for 10 lbs.; per bu., \$14.50; \$24.00 per 100 lbs.

VETCHES

Sand or Winter (Vicia Villosa). Fine for forage or turning under, matures several weeks earlier than Crimson clover. Very nutritious, growing 5 to 6 feet high in the poorest soil. Sow ½ to 1 bu. per acre. 10c. per lb.; 10 lbs., 95c.; \$5.50 per bu. of 60 lbs.; 100 lbs., \$9.00.

CHOICE SEED WHEAT

Our Seed Wheat is grown principally on the farms or estates of gentleman farmers who bear in mind the most important point in wheat growing, that is, well fertilized ground. Most of the wheat offered here has been engaged by us and has a record of having yielded from 36 to 40 bushels per acre. Sow 11/2 to 2 bushels per acre (60 lbs. per bu.).

Fultzo-Mediterranean A hybrid variety, a cross between the Fultz and the Red Mediterranean. Some heads are bearded, while others are bald. 65c. per pk.; per bu., \$2.50.

Fultz. A white bald variety, a big yielder of seed; straw very stiff. 6oc. per pk.; per bu., \$2.00.

Dietz Longberry (Bearded). One of our best red wheats, largely in demand by millers. 6oc. per pk.; per bu., \$2.00.

Jones Winter Fife (Bald). Very prolific, hardy red variety, large grain bands and tiff straw 6oc. per pk.; per bu., \$2.00. long grain heads and stiff straw. 6oc. per pk.; per bu., \$2.00.

SEED RYE

Pennsylvania White Winter. Grown on the farms of large estates where it is carefully rogued and selected. It is grown on the best of soil which insures plenty of vitality, and strong luxuriant growth. Sow 1½ bu. per acre. Prices, 4oc. per pk.; per bu., \$1.35.

RECLEANED TIMOTHY SEED

We handle the very choicest recleaned brand of timothy. On account of the large quantity we handle, we are able to quote very low. Sow ½ bu. per acre alone or 6 qts. if sown with wheat (45 lbs. per bu.). Price, 10c. per lb.; per pk., 75c.; \$2.65 per bu. Special price on large quantities.

Dietz Longberry Wheat.

Timothy.

HELIANTI, THE NEW WINTER VEGETABLE

Should be planted by everyone who wants something to rival with winter Rhubarb or Asparagus

Helianti is an entirely new thing. It has been thoroughly tested in the United States the past year and has come up to all expectations.

The tubers should be planted in the fall or early spring. When planted outdoors to remain during winter, protection is advisable. Place the tubers in rows three feet apart each way and cultivate thoroughly during the growing season.

HARVESTING

When the foliage has died off in the autumn, take the tubers up and store them as you would potatoes or other root crops in a cellar.

YIELD

Where average attention is given the yield has been known to be 80,000 pounds per acre, or almost one and a half times as much as from an acre of potatoes. The tubers are about 8 inches long, and white in color.

FOOD VALUE

Helianti is more digestible than potatoes. It contains no starchy elements, but an abundance of carbohydrates making it very valuable for diabetics. The protein analysis is very high proving it to be very nourishing.

THE TASTE

This is rather hard to define, but has been cited as follows: It resembles French artichokes, somewhat like mushrooms and again like asparagus. It has gained immense favor wherever tested, and in a short time bids to become one of our standard food stuffs.

TABLE PREPARATION

Scrape the tubers, soak in cold water (the latter is important as it makes them retain their white color); boil quickly until soft in salt water; draw off and serve with melted butter and chopped parsley. The tubers may also be cut up and fried when they resemble in taste delicious French potatoes.

25c. per tuber; 10 tubers, \$1.60; \$2.50 per 25 tubers; the three former quantities postpaid. 50 tubers, \$4.00; \$6.50 per 100 tubers.

LAMBERT'S AMERICAN PURE CULTURE SPAWN.

This type produces larger mushrooms than the English, coming into bearing somewhat earlier, and continuing to crop for a long time. This spawn is produced by selecting spores from individual specimen mushrooms and is propagated and transferred to the bricks of manure, which, when planted, produce mushrooms all of one type.

Standard No. 8 Cream White. For use from April to October. Standard No. 9 Pure White. For use from October to April.

RHUBARB ROOTS (For Forcing)

With hardly any effort a supply of fresh Rhubarb may be had all winter. It can be grown in boxes in a cool cellar (where it cannot freeze), or under greenhouse benches, or in cold frames or pits. Subject the roots to a slight freezing before they are planted. Put plenty of fresh horse manure in the bottom. We offer immense clumps. 20c. each; per doz., \$2.00; \$3.75 for 25; 100 for \$13.50.

\$13.50. We can also supply Rhubarb Roots one year old for outdoor planting. \$1.00 per doz.; 100 for \$6.00.

ANGLO AMERICAN MUSHROOM SPAWN.

This brand introduces a new spawn made after pure culture methods, namely, the bricks are all inoculated with germinated spores of specimen mushrooms. In this manner one is assured of getting mushrooms all of one quality and color.

ASPARAGUS ROOTS (For Forcing) (Ready in October)

Asparagus can be forced readily in boxes under greenhouse benches, or in almost any out of the way place where there is bottom heat. They like plenty of moisture after they have started. Subject them to a slight freezing before planting so they will force more readily. Extra large clumps: Each, 25c.; \$2.50 per doz.; per 100, \$18.50.

The measurement of barrows are understood viz, length, meaning inside length of body; depth, inside depth at front; width, outside width at handles.

KEYSTONE LEAF RACK

This new device can be attached to any size or style of wheelbarrow with removable sides. It is most convenient for gathering leaves, cut grass, and rubbish. One of these attachments should be in use on every small suburban place, as well as large estates. Has a capacity of 10 bushels; made of galvanized wire, bolted to a wooden base. Price, \$4.00 for leaf rack only, no barrow.

LEAF RACKS, TRUCKS, Etc.

These Trucks are so constructed to permit a leaf rack, water barrel or stone box being attached thereunto. The truck can instantly be detached from one or the other.

CAMPBELL'S SULPHUR VAPORIZER

This apparatus is designed to safely vaporize sulphur in greenhouses; to kill mildew and other fungus diseases affecting roses, vines, cucumbers, tomatoes, chrysanthemums, strawberries, peaches, and, in fact, any plant; also destroys red spider infesting vines, crotons, asparagus, fern and other plants.

The No. 2 Vaporizer, when fully charged, will vaporize six ounces of sulphur, which is sufficient to kill all mildew in a house containing 10,000 cubic feet. After an operation every particle of foliage is covered with a layer of sulphur, so finely divided and evenly distributed that it is practically imperceptible to the naked eye.

No. 1—capacity, 3 ounces of sulphur; sufficient for a house of 5,000 cubic feet capacity. Price, \$5.50.

No. 2—capacity, 6 ounces of sulphur; sufficient for a house of 10,000 cubic feet capacity. Price, \$7.75.

These vaporizers are made in a most thorough manner and will last for years.

Dorrance Sulphur Burner

An efficient apparatus for dispensing sulphur fumes in greenhouses. Made entirely of copper. Price, \$5.50.

3	Ring,	single		.50	3.50	32.00

The Richmond Support is being extensively used now, one of the double styles takes the place of two ordinary supports.

MÜLLER'S IMPROVED DOUBLE **SUPPORT**

This support is very much like the Double Richmond except that, after the rings are detached it folds flat, thereby requiring very little storage room when putting away.

Per doz., 75c.; \$5.50 per 100; per 1000, \$44.00.

3 Ring Single Richmond Carnation Support

HOT BED MATS

PALMER'S BURLAP MATS

Made expressly for winter covering of hot beds and cold frames.

Indestructible, Cheap and Warm

Will not harbor mice or vermin. Easily handled.

Burlap. 76 x 76 inches, fully covering two regular size hot bed sash, \$1.50 each; \$17.00 per doz.

Burlap. 40 x 76 inches, fully covering one hot bed sash, \$1.00 each; \$11.00 per doz.

Duck and Burlap. 40 x 76 inches, \$1.25 each; \$14.00 per doz. Duck and Burlap. 76 x 76 inches, \$1.75 each; \$20.00 per doz. We can supply these mats any length desired, as follows:

Duck and Burlap. 76 inches wide, at 30c. per running foot.

Plain Burlap. 76 inches wide, at 26c. per running foot.

Straw Mats. For covering hot beds and frames. 3 x 6 feet, \$1.00 each; \$11.00 per doz.; 6 x 6 feet, \$1.40 each; \$16 00 per doz.

Rattan Mats. Very durable and warm, 76 x 76 inches \$2.00 each; \$22.00 per doz.

MICHELL'S STAR IRON PLANT STANDS

Somewhat similar to the "Superior," excepting that they are not fitted with the tilting device, and are finished in black varnish.

HOT BED SASH

Made of best cypress. Size, 3 ft. 2 in. wide, 6 ft. long. We handle enormous quantities of these and make

prompt shipment at low prices. Plain, not glazed or painted. Each,

\$1.50; \$17.00 per doz.

Plain, not glazed but painted one coat white paint. Each, \$1.65; \$18.50 per doz.

Glazed, including painting, but not puttied glass. Each, \$3.25; \$37.50 per doz.

Glazed, including painting and puttying. Each, \$3.50; \$40.00 per doz. All glazed sash are shipped at pur-

chaser's risk, although we pack very carefully to ensure safe arrival.

Packing charges on Glazed sash only, 10c. each; per doz., \$1.20 extra.

Price on Hot Bed Sash subject to Market change

NEW IRON ADJUSTABLE PLANT STAND

This is an entirely new departure in plant stands. It is so constructed as to be adjustable to height by a pipe, which fits in a sleeve notched at intervals, into which fits a small pin that is on the pipe stem.

No. 1. 6 inches high, adjustable to 12 inches. Galvanized, \$1.00, Oxidized, \$1.50.

No. 2. 12 inches high, adjustable to 24 inches. Galvanized, \$1.50; Oxidized, \$1.75.
No. 3. 24 inches high, adjustable to 48 inches. Galvanized, \$2.00; Oxidized, \$2.25.

The stand is nicely finished and suitable to be used anywhere.

SUPERIOR IRON PLANT STANDS

You can tilt and set your plants at any angle desired to produce the proper decorative effect. Enameled green.

PRAIRIE STATE BROODERS

Prairie State Brooders represent the latest achievement in this line of appliances. They save the lives of many chicks which if entrusted to the care of other brooders would often perish.

THE UNIVERSAL HOVER

Just the thing for one who wants the least expensive but at the same time most efficient brooding device. For equipping large or commercial poultry plants these will be found invaluable.

Universal	Hover,	with lam	p box,	comp	lete withou	ut regu-		
lator Universal	Hover,	without	lamp	box,	complete	without	\$7	00

REGULATOR. To automatically regulate the temperature of the Hover to any desired degree. Price, \$1.00 extra.

GALVANIZED WIRE NETTING

Galvanized after woven, which makes it almost equivalent to wire one number heavier.

PRATT'S POULTRY REGULATOR

Every one knows what for thirty years was called Pratt's Poultry Food (now Poultry Regulator.) There's nothing like it for promoting the health of poultry and making hens lay. It is not an unnatural stimulant as it contains no harmful products. Feed it to your flock now and note the increase in egg production. 8 oz. 10c., 26 oz. 25c., 4 lbs. 50c., 60c. for 5 lbs., 12 lb. bag \$1.25, \$1.35 per 12 lb. bucket, 25 lbs. \$2.50.

MICHELL'S HIGH GRADE FERTILIZERS

Prices subject to market changes

ASHES, Canadian Hardwood. 100 lbs., \$1.50; \$2.50 per bbl.; per ton, \$20.00.

ACID PHOSPHATE (High Grade). Fine to use in mixing with other fertilizers. In 200 lb. sacks only. \$2.00 per sack; per ton, \$14.50.

BLOOD (Dried). Very rich in nitrogen. 5 lbs., 3oc.; 5oc. per 10 lbs.; 25 lbs., \$1.10; \$2.00 per 50 lbs.; 100 lbs., \$3.75; \$6.75

per 200 lbs.

BLOOD FLOUR. Contains the largest amount of nitrogen of any of bone or blood preparation. 5 lbs., 5oc.; 85c. per 10 lbs.; 25 lbs., \$1.75; \$6.00 per 100 lbs.; 200 lbs., \$11.50.

BONE FLOUR (Pure). Ground perfectly fine; excellent for pot plants or beds where an immediate effect is wanted. 5 lbs., 25c.; 45c. per 10 lbs.; 25 lbs., \$1.00; \$1.50 per 50 lbs.; 100 lbs., \$2.50; \$4.50 per bbl. of 200 lbs.; ton, \$40.00.

ONE MEAL. Michell's Strictly Pure and Fresh. The most substantial fertilizer for lawns and plants is Michell's Bone Meal. It keeps on feeding the soil for fully ten months. 3 lb. bag, 15c.; 25c. per 5 lb. bag; 10 lbs., 40c.; 85c. per 25 lbs.; 50 lbs., \$1.25; \$2.15 per 100 lbs.; 200 lb. sack, \$3.50; \$32.00 per ton.

BONE. Pure, Coarse Ground. Excellent fertilizer for lawns and borders, coarser than bone meal. 25 lbs., 85c.; \$1.25 per 50 lbs.; 100 lbs., \$2.15; \$3.50 per 200 lb. sack; \$32.00 per ton.

BONORA. 25c. per trial package; 1 lb., 5oc. (makes 28 gallons liquid); \$2.50 per 5 lbs.

MURIATE OF POTASH. Lb., 10c.; 35c. per 5 lbs.; 10 lbs., 50c.; \$1.15 per 25 lbs; 50 lbs., \$1.75; \$3.00 per 100 lbs.; 200 Ibs., \$5.50.

NITRATE OF SODA. Should not be applied until the plants are above the ground, when 100 to 150 lbs. per acre should be sown with other fertilizers, or mixed with phosphates. Lb., 8c.; 25c. per 5 lbs.; 10 lbs., 50c.; \$1.10 per 25 lbs.; 50 lbs., \$2.00; \$3.50 per 100 lbs.; 200 lbs., \$6.50; \$30.00 per ½ ton; ton, \$58.00.

NITRO CULTURE (Nitrogen Fixing Bacteria). For all leguminous crops. 25c. and 5oc. per pkg.; per pkg. for an acre, \$1.50. (Send for descriptive circular).

PHOSPHATE (Baugh's High Grade Ammoniated). 5 lbs., 20c.; 35c. per 10 lbs.; 25 lbs., 60c.; \$1.00 per 50 lbs.; 100 lbs., \$1.75; \$3.00 per 200 lbs.; ton, \$25.00.

PHOSPHATE. Super High Grade. Analysis: Ammonia, 4 to 6 per cent.; bone phosphate, 24 per cent.; available phos. acid, 6 to 8 per cent.; sulph. potash, 1 to 2 per cent. It stands without a rival as the largest crop producer. Apply 400 lbs. per acre. 5 lbs., 20c.; 35c. per 10 lbs.; 25 lbs., 60c.; \$2.00 per 100 lbs.; 200 lbs., \$3.50; \$30.00 per ton.

PLANT BLOOD. Per package, 15c.; \$1.00 per 12 lbs.; 25 lbs.,

\$1.75; \$3.00 per 50 lbs.; 100 lbs., \$5.50.

POTATO MANURE (Baugh's). 25 lbs., 75c.; \$1.10 per 50 lbs.; 100 lbs., \$2.00; \$3.50 per 200 lb. bag; ton, \$30.00.

POUDRETTE. Lb., 1oc. (26c. by mail); 2oc. per 5 lbs.; 10 lbs., 35c.; 6oc. per 25 lbs.; 5o lbs., \$1.00; \$1.50 per 100 lbs.; 200 lb. sack, \$2.50; \$5.00 per 500 lbs.; \$8.00 per 1000 lbs.; ton, \$15.00. SULPHATE OF POTASH. 5 lbs., 4oc.; \$1.50 per 25 lbs.; 100 lbs., \$4.00; \$7.25 per 200 lbs.

SALT (Agricultural Brand). For top dressing gardens or asparagus beds. Apply early in spring, at rate of 600 to 800 lbs. per acre. 10 lbs., 20c.; 25 lbs., 30c.; 50 lbs., 55c.; \$1.00 per 100

lbs.; 200 lbs., \$1.50; \$10.00 per ton.

SHEEP MANURE (Pure, Fresh Pulverized). One of the richest general fertilizers. 2 lbs., 15c.; 25c. per 5 lbs.; 10 lbs., 40c.; 75c. per 25 lbs.; 50 lbs., \$1.25; \$2.00 per 100 lbs.; 500 lbs., 9.50; \$17.00 per ½ ton; ton, \$32.00. Barrels, about 200 lbs., \$4.50.

SOOT (Imported Scotch). Lb., zoc.; 35c. per 5 lbs.; 25 lbs., \$1.25; \$4.00 per 100 lbs.

SULPHATE OF AMMONIA. Lb., 10c.; 35c. per 5 lbs.; 10 lbs., 60c.; \$2.50 per 50 lbs.; 100 lbs., \$4.50.

TANKAGE. 100 lbs., \$2.50; \$4.25 per 200 lbs.; \$35.00 per ton. HOMSON'S FLOWER AND VEGETABLE MANURE. This is one of the very best fertilizers, introduced from England, and can be highly recommended to any one wishing an immediate effect in forcing. Highest testimonials from those who have tested its merits. Lb., 15c.; 6oc. per 5 lbs.; 10 lbs., \$1.10; \$1.75 per 28 lb. sack; 56 lb. sack, \$3.25; \$6.25 per 112 lb. sack.

TOBACCO STEMS. Largely used for covering lawns during the

winter. Lb., 5c.; 2oc. per 5 lbs.; per bushel, 5oc.; \$1.00 per barrel; large bale, \$2.00; \$6.50 per ½ ton; ton, \$12.00.

WOOD ASHES (Canada Unleached Hardwood). 5 lbs., 2oc.; 35c. per 10 lbs.; 25 lbs., 6oc.; 85c. per 50 lbs.; 100 lbs., \$1.50; barrel, \$2.50; \$10.00 per ½ ton; ton of 2000 lbs., \$20.00. Apply about 1000 lbs. to the acre.

MISSOURI

Fruit Experiment Station

Bulletin 18.

October 1908.

TABLE IV.

Experiment at Jefferson Barracks on Peach. Sprayed March 21, 1908.

Examination made May 20, 1908, after spraying.

Spray and Formula	Number of Trees.	Scales Counted.	Scales Dead.	Scales Living.	Ratio of Benefit. Per Cent Dead.
Lime-Sulphur, boiled 45 min. 15-15-50	70	123	120	3	97.6
Target Brand Scale Destroyer, 1 to 20	18.	115	115	0	100.0
Kerosene Emulsion, 10 per cent	24	121	100	21	82.6
Target Brand Oil Emulsion, 1 to 25	14	101	100	1	99.9
TOTAL	126	460	1		

"From the tables already referred to it will be seen that seven different counts were made where some formula or kind of miscible oil had been used in these experiments and that an average of the percentage of scales killed showed 99.6 per cent. An average of ten counts made upon standard and commercial lime-sulphur sprays used in the same experiments gave 89.7 per cent scales killed, or a difference of 10 per cent in favor of the miscible oil sprays." (The oils used were another brand at 1 to 15 and Target Brand at 1 to 20 and 1 to 25.)

"Target Brand"

Scale Destroyer

For San Jose Scale

Henry F. Michell Company.

518 and 1018 Market Street.
Philadetohia. Pa.

DIRECTIONS FOR PREPARING

Target Brand Scale Destroyer for use on dormant trees.

To such quantity of concentrated Scale Destroyer as you desire to use add 1 pint of cold water, stir with a stick or paddle for two minutes; add 1 more pint of water and stir as before, continue to add water, 1 pt. at a time, until the whole mixture becomes entirely milk-white. To the emulsion so formed the rest of the water may be added, at one time, to make a dilution of 1 of oil to 20 of water, as follows:

1 Quart of							
1 Gallon .	4.6	* **	6.6	20	. "	4.6	6.6
21/2 ** .	44	#6 ,	- 44	50	4.4	4.4	4.4
5 . "	4.6	44	. 44	100	44	6 6	6 0

Apply dilution so formed through a fine spray nozzle with a force pump that maintains a pressure of at least 100 pounds.

use

TARGET BRAND SCALE DESTROYER AT 1 TO 20

As Soon as the Leaves Drop From the Trees This Fall

It is Effective, because it spreads into all cracks and crevices, where other spraying material will not reach, and forms there an insoluble coating which kills the insect, but protects the tree and keeps it healthy.

It is Safe, because it has no caustic action and is not penetrative like volatile oils. Experiments have proven that repeated applications, twice each year, for several years, have not had injurious effects. Trees treated with Target Brand Scale Destroyer retain their foliage in the fall longer than any others, thus proving their greater vitality.

It is Economical, because it saves time and labor; never clogs nozzles nor injures men or animals. Its guaranteed composition makes it always effective; its non-volatile character makes it always safe, when applied as directed. It is applied the easiest and goes the farthest.

If Spraying can not be Done This Fall

"Target Brand" Scale Destroyer may be used during the Winter and Spring, whenever temperature is above freezing.

The AUTO-SPRAY

No. I is the standard of all compressed air sprayers. It consists of a reservoir of about 4 gallons capacity made of heavy material, either of brass or galvanized steel as crdered. In this tank is inserted and locked our brass air pump which may be attached or detached by the simple shift of To this reservoir is attached a lead of discharge hose with customer's choice of any one of the shutoff attachments shown on page 4. To the shut off is at-

tached a nozzle, and the nozzle may also be operated in connec-

Fig. 195 tion with the extension pipe or elbow as shown in the various illustrations.

Diameter, . 7 Inches Weight empty, . 8fbs. Weight loaded, . 391's. Height, . . 2 Feet Capacity, abt. 4 Gallons Weight shipping, 13ths.

Thousands of unsolicited testimonials are on file with us. We will give names of users in any locality when requested.

PATENTED.

Fig. 119 Auto-Spray No. 1

Fig. 212 Spraying Potatoes

THE AUTO-SPRAY No. 1 is used for spraying trees, shrubs, vines, greenhouses, poultry houses, hospitals and stables, for disinfectants for sheep and cattle dip and cattle fly oils. be used where any other spray pump can be used, and will handle all spray solutions, including whitewash and cold water paint.

How it Works The AUTO-SPRAY No. 1 is operated by working an air pump with which air is compressed on top of the solution. After the pressure is generated the operator has nothing to do but direct the spray. A few

Fig. 216 Spraying Roscs and Shrubs

strokes of the plunger will compress enough air to operate the machine several minutes, and two pumpings will discharge all of the contents.

How it is Made The AUTO-SPRAY No. 1 is made of heavy material throughout, and the brass machine which we strongly recommend, is practically

indestructible because it cannot be af fected by the various spray solutions The construction throughout is thoroughly mechanical and so simple that it is not liable to get out of order.

EXTRA EQUIPMENT is illustrated and priced on page 4.

Fig 218. Auto-Pop No. 1 is a patented shut-off device with self-cleaning attachment. Operating the lever opens

or close the valve and cleans the nozzle aperture automatically.

Fig. 220. Auto-pop No. 2 operates similar to the Auto-Pop No. 1, but has no cleaning device.

Fig. 222. Auto-Pop No. 3 has no lever and no cleaning device.

Fig. 211 Spraying Trees

Fig. 224. Stop-Cock requires two hands to operate.

Copper Strainer. A great convenience in the preparation of solutions.

The Torch. For burning worms' nests. Burns kerosene oil vaporized with air, and the flame is so hot that worms are instantly destroyed.

"—A NEW REMEDY FOR WORMS AND GRUBS

Every gardener will welcome a good remedy for cut worms, etc. This is really the only successful one ever put on the market that will do the work. It is used by mixing with the soil, a cart load of the latter requiring from 2 to 3 lbs. of Vaporite. Full directions with each package. 1 lb. 15c.; 60c, per 5 lbs.; 10 lbs. 90c.; \$2.00 per 25 lbs.; 50 lbs., \$3.75; \$6.50 per 100 lbs

SPRAY PUMPS, Etc.

DEMING'S SIMPLEX No. 550 BARREL PUMP

This pump is one of the very best sprayers on the market. Fitted with brass cylinders. Will not corrode or rust. Will throw a stream

40 feet. Plain Pump, no hose or nozzle or barrel. \$7.50

Outfit A—Pump, with 12½ feet hose,
fitted with either a Bordeaux or Vermorel nozzle and pole connection for reaching

into trees, without barrel. \$10.00.

Outfit B—Pump, with two 12½-foot sections of hose, two Bordeaux or Vermorel nozzles, pole connection, no barrel. \$12.50

Barrels, with trunnions ready to mount

on truck, with cut head. \$3.25.

Barrel and Pump Outfit A, complete, with Trucks, as follows:

1½ inch Tire Truck \$19.25 2½ inch Tire Truck 20 00 3½ inch Truck, complete 20.75

DEMING'S CENTURY BARREL SPRAY PUMP

A very powerful pump for the orchard. The working parts are entirely of brass; has large air chamber; also a perfect agitator and a long fulcrum link, which enables the operator to work the pump with little power.

Deming's Barrel Spray Pump

SPECIAL SPRAY PUMP HOSE (Half Inch) 12½ feet, with couplings and nozzle . . \$2.75 25 feet, with couplings and nozzle 7-foot sections for bucket pumps, 3/8 in., with couplings but no with couplings but no nozzle 1.25 THE AUTO SPRAY

The Auto Spray is now used by all the large fruit growers for spraying. It operates with compressed air; safe and efficient; liquid capacity, 4 gallons; pressure capacity, 40 pounds.

AUTO POP ATTACHMENT which controls the flow instantly by a pressure of the hand. When purchased with the machine (omitting other nozzle), \$1.00 extra; when pur-

chased separately, \$1.35.

EXTENSION PIPES FOR AUTO SPRAY,
2 feet long. Brass, 45c.; galvanized, 3oc. We can furnish all extra parts for the Auto Spray.

Auto Spray

This is a double-action, all brass pump, complete with hose, nozzle and extension pipes. A most satisfactory addition to our pump line. Price, \$4.50.

SULPHUR BLOWER

For distributing sulphur and insecticides of various kinds. Price, \$4.50.

It pays to Spray at all Seasons of the Year.

THE AUTO WHITEWASH MACHINE AND SPRAY PUMP

This sprayer has a heavy galvanized reservoir (capacity eight gallons), fitted with a double or continuous action spray pump and agitator. The working parts are brass, fitted with the necessary hose, extension pipes and nozzle. Price, \$12.00.

BRASS STRAINER

For straining whitewash and spray material. Price, \$1.00.

DEMING KNAPSACK SPRAYERS

These are elegant for carrying around the garden, among shrubbery, etc., and also for tree work.

Fig. 675. Copper tank, holding about 7 gals., complete, with pump, nozzle and hose \$13.50

Fig. 654. Galvanized tank, holding about 7 gals., complete, with pump, nozzle and hose. . . . 9.50 Whitewash Machine

Success Pump

DEMING'S SUCCESS SPRAY PUMPS

The Success Pumps are the most popular spray pumps on the market. Made entirely of brass, they cannot rust or corrode. Fitted with either a Bordeaux or Vermorel nozzle. Success, Plain, with nozzle and

Perfect Success, with nozzle, hose and bucket feet are and bucket fastening attachment 4.75

MYERS' BUCKET PUMP All brass Price, \$3.00

EXTENSION PIPES, Etc.

Bamboo, brass tube, 10 ft. long, \$2.50 Bamboo, brass tube, 8 ft. long, 2.00 Solid brass, ¼ in., 8 ft. long. Iron, ¼ inch 1.50 Pet Cock, extra . . .

MICHELL'S AUTOMATIC HAND SPRAYER

This is a new sprayer which requires very little work in operating. It has a device for air compression, and will be found a most convenient sprayer, especially for ladies. Made in two styles. Brass, \$2.00; Tin, \$1.00 each.

Small single cone, "	I.IO
Liquid spraying, each small, \$1.50; large,	2.00
Sulphur bellows, each	1.50
Houchins Small Single Cone, each	.60

Prices on Implements and Sundries subject to market changes

- 1 The winds are more favorable for spraying in the fall months, allowing more careful and thorough work to be done.
- 2 As a rule the orchardist has more time at his command in the fall than after the spring work begins.
- 3 There is no frost coming out of the ground during the fall to prevent the easy moving of apparatus into all parts of the orchard.
- 4 During the winter months the scale often causes serious injury which could have been prevented if sprayed during the fall.
- 5 Should the work of spraying be not entirely completed during the fall, the grower will have a second opportunity fo finish before the growing season.
- 6 During the fall the scale is least able to withstand the effects of any spray application. Later in the season it becomes more resistant from exposure to adverse weather.

Target Brand Scale Destroyer

A Soluble Oil for San Jose Scale

Kills every scale it hits! Does not injure trees! Mixes perfectly with cold water!

Saves apparatus from wearing out! Does not clog nozzles! Requires no boiling!

Positively non-injurious to men and animals! Cheaper than lime and Sulphur!

Target B'd Oil Emulsion, 1 to 25	14	101	100	1	99.9		
Total	126	460					

I beg to say Target Brand was used, side by side with two other brands of soluble oil on Japan Plums, under the direction of Dr. J. B. Smith of the New Jersey Experimental Station. A few days ago Dr. Smith sent an expert here to note results and after careful examination he reported, on the plot where Target Brand was used, he did not find a living scale.

JAMES McCRACKEN, NEW BRUNSWICK, N. J.

I have 90 acres in apple trees with recent set orchards filled in with peach. The Spring of 1905 I fixed up a plant to make Lime, Salt and Sulphur Wash with live steam. After thus preparing 1300 gallons which were applied with a power sprayer the balance was sprayed with Target Brand Scale Destroyer in proportion of one gallon of the oil to nineteen of water. The results from every standpoint were so much in favor of Target Brand that I have used it exclusively since. My orchards have passed from a very badly infested stage to one almost free of scale. This year we had 1600 barrels of apples with little to no scale on the fruit.

JOSIAH W. PRICKETT, BIGLERSVILLE, PA.

ONE GALLON DESTROYER makes TWENTY GALLONS DILUTION ready to apply.

For Use on DORMANT TREES only (while leaves are off in Fall, Winter and Spring)

TARGET BRAND SCALE DESTROYER costs per quart, 35 cts.; Half Gallon, 65 cts.; One Gallon, \$1.00; Five Gallons, \$3.75; Ten Gallons, \$7.50; Half Barrels, at 55 cts. per Gallon; Barrels, at 50 cts. per Gallon.
